

Your community, your care, your career...

Are you looking for a *flexible, supportive and amazing learning environment in nursing?*

As a leader in home health and community-based care, Saint Elizabeth Health Care is committed to providing positive, dynamic and progressive learning experiences for students that support excellence in the delivery of home health services.

Saint Elizabeth Health Care provides each student with a range of clinical and related opportunities aimed at increasing their knowledge and skills in community nursing. Learning opportunities may include health assessments, development of care plans, client teaching and health promotion within the context of therapeutic relationships. Collaboration with clients in all aspects of their care is emphasized.

"A placement in community care should be mandatory because community care does not get the respect it deserves in the classroom."

*Dave Vincent, Nursing graduate
Confederation College, Thunder Bay*

We Offer:

- A dynamic learning experience. Our visiting nursing program encompasses many services, including care of older persons, diabetes care, wound management, palliation, home infusion, home dialysis, respiratory and cardiac care as well as mental health, pediatrics and maternal-newborn.
- Opportunity to focus clinical placement in one area of practice.
- One-to-one preceptorship with an experienced nurse with ongoing feedback.
- Orientation to SEHC including online access to @YourSide Colleague™.
- Evaluation of placement based on student's learning goals.
- Opportunities to participate in a variety of projects, such as implementing best practices, developing educational in-services and materials for nurses and families, and participating in research projects.
- Opportunity for final year students to provide independent client care after demonstration of knowledge, skills and judgment, and consultation between student's preceptor and faculty advisor.

...your choice
