

Dear Faculty

Re: Nursing student placement opportunities in the community

Are your nursing students looking for *rewarding and dynamic learning opportunities*? They will be able to experience this and so much more at Saint Elizabeth Health Care!

At Saint Elizabeth Health Care, our Vision to be a phenomenal knowledge and care exchange company fosters an environment in which innovation, ongoing education, research and best practices thrive! Saint Elizabeth Health Care provides each student with a range of clinical and related opportunities aimed at increasing students' knowledge and skills in community nursing. Our focus is on enabling students to fully understand how we provide high quality nursing care in the client-driven community environment.

For more information on the student placement program at Saint Elizabeth Health Care, please visit our website at www.saintelizabeth.com. Our website will provide access for both you and interested students to gather a greater understanding about community care and what our student program has to offer.

If you have any students interested in this opportunity, please coordinate directly with our local Service Delivery Centre Student Contacts in the area where the student would like to be placed. Saint Elizabeth Health Care provides care throughout the province of Ontario, so there are many opportunities for students to deliver care in their own community or in another desired location. Attached is a listing of our Service Delivery Centre Student Contacts and their respective addresses. This information can also be found on our website.

We look forward to collaborating with you in furthering the knowledge and skills of our future nurses.

Thank You

Nancy Lefebre
VP, Knowledge and Practice

Angela Finkel, Clinical Consultant, Maternal/Newborn
Student Program Manager
