Grant and Award Opportunities

Remember – always check grant information carefully

The Canadian Frailty Network Spring Board Grants Program (Early Career Research) Letter of Intent deadline is May 16, 2022. Full application deadline is July 18, 2022. Funds available – dependent on funding stream, ranging from $50,000 to $100,000 for 18 months. Proposals will be more competitive if it includes partners who have committed cash or eligible in-kind contributions.

New Canadian Opportunities

Pfizer Canada Global Grants in collaboration with Bladder Cancer Canada and Serono have issued a request for proposals for projects that will improve the quality of care of patients with metastatic bladder cancer. Funds available: $100,000 per grant. Application deadline: May 30, 2022.

The Social Sciences and Humanities Research Council June Partnership Engage Grant (PEG) application deadline is June 15, 2022; UofT applicants must submit their MRA by Friday June 10 and their full application by Tuesday June 14. The usual PEG grant has a value of $7,000 to $25,000. SSHRC has announced a special funding opportunity related to this PEG: Residential Schools Joint Initiative. Funds available for this opportunity: $7,000 to $50,000. This unique opportunity will support projects responding to a community’s need for planning, discussions, archival work or storytelling prior to or in addition to excavations or identifications on residential school sites in Canada. Projects can also focus on ground exploration, identification of sites and remains, repatriation of missing children form residential schools or mapping and preservation of these sites, as judged appropriate by the community.

Students: Applying for research funding? Contact the Research Office to get information and approval on proposals and ethics ahead of deadlines, and check with your supervisor!

International Opportunities

PCORI Pre-launch announcement: PCORI is launching its phased large awards for comparative effectiveness research – cycle 3, 2022, on September 7, 2022. An applicant town hall will be held September 12, 2022. Letter of intent deadline is October 4, 2022, with full application due January 10, 2023. The opportunity is for applications for high-quality comparative clinical effectiveness research projects, either individual-level or cluster randomized controlled trials.

CDMRP The Department of Defense Congressionally directed FY2022 medical research programs have been announced. Breast Cancer. Breakthrough awards level 3 and 4, Innovator Award, and Transformative Breast Cancer Consortium Award have pre-application deadlines of April 28, 2022, with invited applications due July 27, 2022. Breakthrough Award levels 1 and 2 and the Era of Hope Scholar Award have pre-application deadlines of May 3, 2022, with full application due May 17, 2022.
**Amyotrophic Lateral Sclerosis Research Program.** Pilot clinical trial award, clinical biomarker development award, therapeutic development award, and therapeutic idea award have pre-application deadlines of April 29, 2022, with full application (by invitation) due July 28, 2022.

**Ovarian Cancer.** Pilot Award, Proteogenomics research, Ovarian Cancer Academy Award – Early Career Investigator, and Investigator-initiated research, all have a pre-application deadline of May 2, 2022, with full application due August 5, 2022.

**Lung Cancer.** Career Development Award and Concept Award have pre-application deadlines of May 3, 2022, with full application due May 17, 2022. The clinical translational research partnership award, idea development award, and investigator-initiated translational research award all have pre-application deadlines of May 4, 2022, with full application due July 27, 2022.

**Sigma Research Grants** with a July 1, 2022, application deadline are the Doris Bloch Research Award; Joan K. Stout Research Grant; and the American Nurses Credentialing Center Evidence-based Practice Implementation Grant. Please review eligibility carefully; PhD students should speak to their supervisor and ensure their supervisor is listed as a co-principal investigator on the grant.

**NIH Funding**

- Cancer Prevention and Control Clinical Trials Grant Program (R01 Clinical Trial Required); expires January 8, 2024; NCI; [PAR-21-035](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-035) (R01)
- NIMH (National Institute of Mental Health) Exploratory/Developmental Research Grant (R21 Clinical Trial Not Allowed); [PA-21-235](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-235); expiry date: May 8, 2024
- NICHD (National Institute of Child Health and Human Development) Small Research Grant Program (R03 Basic Experimental Studies with Humans Required); [PA-21-231](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-231); expires May 8, 2024.
- NICHD Small Research Grant Program (R03 Clinical Trial Required); [PA-21-221](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-221); expires May 8, 2024.
- Innovative mental health services research not involving clinical trials (R01, clinical trials not allowed); [PAR-21-316](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-316); LOI due 30 days before application due date; check notice for all application dates. Expiry September 8, 2024.
- Dementia care and caregiver support intervention research (R01, clinical trial required); [PAR-21-307](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-307); LOI due 30 days before application due date; check notice for all application dates. Expiry February 14, 2024.
- Pragmatic trials for dementia care and caregiver support (R61/R33 – clinical trial required); [PAR-21-308](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2021-308); LOI due 30 days before application due date; check notice for all application dates. Expiry February 14, 2024.
- Research on Biopsychosocial Factors of Social Connectedness and Isolation on Health, Wellbeing, Illness, and Recovery (PAR-21-352: R01 Clinical Trial Required, Expires September 8, 2024); (PAR-21-350: R01 Clinical Trials Not Allowed, Expires June 22, 2024); (PAR-21-349: R01 Basic Experimental Studies with Humans Required, Expires June 22, 2024), NCI, NINR, NIA.
- Pilot studies for the spectrum of Alzheimer’s Disease/Alzheimer’s Disease-related dementias and age-related cognitive decline, R61, Clinical Trial optional (PAR-21-360). NIH and NIA. Expires January 8, 2025.
- Early and late stage clinical trials for the spectrum of Alzheimer’s disease/Alzheimer’s related Dementias, and age-related cognitive decline, R01 Clinical Trial optional (PAR-21-359). NIH and NIA. Expires January 8, 2025.
- Research on current topics in Alzheimer’s disease and its related dementias, R21 Clinical Trial Optional (PAR-22-094) and R01 Clinical Trial Optional (PAR-22-093). NIH and NIA. Expires November 13, 2024.
- Notice of Special Interest: Validation of Digital Health and Artificial Intelligence tools for Improved Assessment in Epidemiological, Clinical and Intervention Research. This special notice applies to several NIH Programs, including those sponsored by the National Institute of Nursing Research: e.g., [PA-20-185](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2020-185); [PA-20-183](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2020-183); [PA-20-200](https://grants.nih.gov/grants/guide/pa-idx.html?Term=PRA%2020-200) and more. This opportunity expires March 09, 2024.
Expiring soon

- Enhancing social connectedness and ameliorating loneliness to prevent and treat SUD and support recovery. [RFA-DA-23-009](#) (R21) and [RFA-DA-23-010](#) (R34). For both: **LOI due July 15, 2022, and full application due August 15, 2022.**

New

- NINDS (National Institute of Neurological Disorders and Stroke) Exploratory Clinical Trials (Clinical Trial Required). [PAR-22-142](#). Letter of intent required; **expiry March 11, 2025.**
- Research opportunities in established cancer epidemiology cohort studies (U01; Clinical trial not allowed). [PAR-22-162](#); **Expiry March 1, 2025.**
- Cancer epidemiology cohorts: Building the next generation of research cohorts (U01 Clinical trial not allowed): [PAR-22-161](#). LOI optional; **expiry March 1, 2025.**
- Development of innovative informatics methods and algorithms for cancer research and management (R21 clinical trial optional); [RFA-CA-22-021](#). LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).
- Early-stage development of informatics technologies for cancer research and management (U01 Clinical trial optional); [RFA-CA-22-022](#). LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).
- Advanced development of informatics technologies for cancer research and management (U24 clinical trial optional). [RFA-CA-22-023](#); LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).
- Sustained support for informatics technologies for cancer research and management (U24 clinical trial optional). [RFA-CA-22-024](#); LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).

Many more opportunities are available in the NIH database. Important: for researchers thinking of applying to the NIH, **NIH strongly encourages PIs to contact program officers directly.** Program Officers give valuable information and assistance to applicants. They will also help rejected applicants understand the weaknesses of an application.

Standard application deadlines apply. Please check NIH funding applications carefully re: submission deadlines. U of T Researchers must meet internal deadlines; please check with research office before beginning an application.

**New CIHR Opportunities**

Pre-announcement: [Policy Research for Health System Transformation](#). Launching May 18, 2022. **Full application deadline October 4, 2022.** This funding opportunity will support one-year Policy Research for Health System Transformation grants that generate evidence to inform macro-level policies to support high-performing health care and public health systems in Canada with the aim of advancing the Quadruple aim (improved population health outcomes, better patient and provider experience, and increased value) and health equity. Value: $150,000 for one year. Approximately 24 grants will be awarded. Additional funds may be available from external partners, and supplemental funding of $75,000 will support highest overall ranked fundable application to lead the Knowledge Mobilization Synthesis Project.

CIHR is funding [travel awards to attend the AIDS 2022 Conference](#) (Montreal, QC, July 29-August 2, 2022). Funds are available for trainees (up to $2500) and early career researchers (up to $3000). **Application deadline is April 30, 2022.**
The Artificial Intelligence for Public Health (AI4PH): A focus on Equity and Prevention summer institute funded by CIHR will run in Montreal, QC, July 17-22, 2022. Open to doctoral students, postdoctoral fellows, and early career researchers. **Application deadline is May 2, 2022.** Successful applicants will be invited to submit for CIHR-IPPH Travel Awards to cover up to $2,000 of transportation and accommodation costs.

The 2022-2023 Banting Postdoctoral Fellowship **application deadline is September 9, 2022.** UofT applicants will need to meet internal deadlines. The award is worth $70,000 per year for two years. More detailed information can be found at the Banting website. It is open to Canadian citizens, permanent residents of Canada and foreign citizens.

Reminder – these competitions are still open

**Canadian Opportunities**

**New Frontiers in Research Fund (NFRF) Special Call: Research for Post-Pandemic Recovery** Notice of intent deadline is April 26, 2022, with full application due August 9, 2022. Important: U of T Researchers must submit their MRA for the NOI by April 19, 2022, and the internal deadline for the full application is August 2, 2022. The purpose of the Special Call is to mobilize Canadian-led research efforts in support of a more equitable, sustainable, and resilient post-pandemic reality. Projects must directly address one more of the research priorities of the UN Research Roadmap for the COVID-19 Recovery. This competition will support two-year grants of up to $500K (including indirect costs), with a total funding commitment of $24 million. An information session was held on March 1, 2022; the slides and Q&A are available from the research office.

**Annual Pat Griffin Research Grants:** Application deadline is extended to May 1, 2022. Two grants are available; funding available: up to $15,000. The research should address research priority number seven of the Nursing Education Outcomes of the National Research Priorities for Nursing.

**SSHRC Upcoming Award** deadlines: Connection Grants support events and outreach activities, value is $7,000 to $50,000 (higher amounts can be considered if well-justified). Important: 50% matching funds (Cash or in-kind) are required. **Deadline: May 1, 2022,** UoT applicants must submit one week before. Partnership Engage grants support partnered research activities that will inform decision-making at a single partner organization. Value is $7,000 to $25,000. Partners are expected to support via in-kind or cash contributions. **Deadline is June 15, 2022.** UofT applicants must submit one week before.

**The Canadian Association of Nurses in Oncology** funds two research grants, to a maximum of $5,000 each. **Submission deadline is May 15, 2022.**
The Arthritis Society (Canada) has launched its 2022 research competition.

- **Ignite Innovation Grants** opens April 4, 2022; **abstract registration deadline is May 16, 2022; full application due June 18, 2022**. Ignite Innovation supports high risk, high reward research. Funds available: $50,000 per year for up to two years total ($100,000 total).
- **Stars Career Development Award**: **Abstract registration deadline May 18, 2022, and full application due June 29, 2022**. Funds available for Early Career Investigators: $125,000 per year for up to three years ($375,000 total) with an additional three (3) years of support from the Host Institution of an equal value. Maximum for mid-career investigators is $150,000 annually for up to three years with an additional three years of support from the Host Institution of an equal value.

The Canadian Association of Critical Care Nurses Research Grant **application deadline is June 1, 2022**. Award value: $2,500.

**International Opportunities**

The Lung Cancer Research Foundation offers several competitions:

- **Pilot Grant Program** **Letter of Intent Deadline is April 30, 2022**. Funds will support biological and clinical research, including prevention and screening for early detection, as well as supportive measures for people with lung cancer and their families. Funds available: $150,000 in funding over two years to early and mid-career investigators.
- **Research grants on oncogenic drivers in lung cancer** **letter of intent deadline is April 30, 2022**. Funds available: $150,000 in funding over a period of two years to investigators with any level of research experience.
- **Research grant on early detection and pre-neoplasia in lung cancer** **letter of intent deadline is April 30, 2022**. Funds available: $150,000 in funding over a period of two years to early and mid-career investigators.

The Sigma Global Nursing Research Grant **application deadline is May 1, 2022**. One grant of up to US$10,000 is available. **PhD students**: if thinking of applying for any of these grants, please consult with your supervisor and/or the Research Office. You must list your supervisor as the PI.

The Gerontological Advanced Practice Nurses Association (US) has several awards available, including the GAPNA Foundation research Project Grant (worth US$2,000). **Application deadline is May 1, 2022**.

The Oncology Nursing Society Foundation Research Grant **competition Letter of Intent deadline is May 8, 2022, with full proposals due July 7, 2022**. There are two competitions. Topic aligned with ONS Research Agenda (RE03), for emerging or mid-career oncology nurse researchers who have not previously received and completed at least one research study with a funding level of $50,000 as the study PI. Topic aligned with ONS Research Agenda (RE33), for established oncology nurse researchers with demonstrated funding history of at least $50,000 in prior funding. The three areas of focus for both grants are: Symptom science, health disparities, and palliative and psychosocial oncology care.

Alex’s Lemonade Stand Foundation (Pediatric Oncology) is offering two grants with an **application deadline of May 12, 2022**. **A’ Award** is targeted to early career scientists who ideally do not have a currently
funded project. The focus is on advancing the Foundation’s mission to find cures and better treatments. A mentor is required and a career development plan must be included. The requested budget should be at or under USD $800,000 in direct costs over four years; no indirect costs allowed; a maximum of US$200,000 in total costs per year for up to four years. The R Accelerator also provides support to find cures and better treatments. The requested budget should not exceed US$800,000 over four years (a maximum of US$200,000 per year may be requested). Indirect costs are not allowed.

**ASPA** The [American Society of PeriAnesthesia Nurses](#) research grant competition deadline is June 15, 2022.

**MNITF** The [Mendez National Institute of Transplantation Foundation](#) letter of intent deadline is June 15, 2022, with full application by invitation due November 1, 2022. Funds available: total of $150,000 per grant; grants may be two-year projects. Research focus is on multi-disciplinary research that will improve clinical outcomes in transplantation, empowering patients by providing education on proactively managing their health to improve long-term outcomes, and more.

**CIHR Grant Opportunities**

Catalyst Grant: [HIV/AIDS and STBBI Community-based Research](#). Application deadline April 24, 2022. The goal of this grant is to provide seed money to support CBR research activities that are a first step towards obtaining funding grants. Funds available: $600,000 enough to fund approximately six grants. Maximum amount per grant is $100,000 per year for up to one year. There are two pools: General pool – up to three grants; Indigenous pool – up to three grants.

Operating Grant: [HIV/AIDS and STBBI community-based research](#). Application deadline April 24, 2022. Total funds available: $1,800,000, enough to fund approximately four grants. Maximum per grant is $150,000 per year for up to three years, for a total of $450,000 per grant. Of the total, there are two pools: General pool, $900,000, enough for two grants; and Indigenous pool, $900,000, enough for two grants.

Catalyst Grant: [CPHO’s Report 2021: Future of Public Health](#). Application deadline: May 4, 2022. Goal is to support research on population and public health priorities identified in the [Generating knowledge](#) to inform public health systems transformation document. Total funding: $2,000,000, enough to fund approximately 20 grants. Maximum per grant is $100,000 per year for one year. Of this $2,000,000:

- **General Pool**: $1,000,000 is available to fund up to ten (10) applications relevant to the general pool.
- **Centre for Research on Pandemic Preparedness and Health Emergencies Pool**: $1,000,000 is available to fund up to ten (10) applications relevant to the Centre for Research on Pandemic Preparedness and Health Emergencies (CRPPHE) from the CRPPHE.

Within each pool a minimum of two grants will be reserved for Early Career Researchers who have never previously held a CIHR open operating grant as its Nominated Principal Applicant (NPA).

**Team Grant: Indigenous Healthy Life Trajectories Initiative Cohort Research Study.** Application deadline June 8, 2022. Funds available: $14,100,000, enough to fund one Research Study and one Collaborating Centre.

**Mental health in the early years implementation science team grants.** Application deadline: June 23, 2022. Research Goal: To fund implementation science research that enhances our understanding of how to improve the systematic and equitable implementation of evidence-based interventions for young children (ages 0-5) by: promotion of positive socio-emotional development and mental health in early childhood; prevention of early childhood mental health issues; treatment of young children living with or at risk of developing mental health
issues through integrated, coordinated and person-oriented care. Funds available: $6,250,000, enough to fund approximately five grants. Maximum per grant is $250,000 per year for up to five years, for a total of $1,250,000 per grant.

**Competitions with no fixed deadline**

**NSERC and Mitacs** have developed a joint application process for researchers seeking support from both agencies. It is now possible to request support through Mitacs Accelerate internships as part of the full Alliance application. The **Alliance Grants** system accepts applications at any time – there is no deadline. As of February 2022, Alliance Option 2 is funded 100% by NSERC.

**NSERC** has launched **Alliance International Catalyst and Collaboration Grants**. **Application deadline: No fixed date.** Catalyst grants are up to $25,000 for up to one year; and Collaboration Grants are $100,000 per year for up to three years. These grants support Canadian researchers to work with leading international academic researchers, to establish and grow international research collaborations relevant to Natural Sciences and Engineering disciplines. Overall objectives: initiate development of international collaborations; support participation in international collaborative projects of global importance and benefit to Canada.

**Mitacs Accelerate** accepts applications throughout the year. The competition is open to doctoral students and post-doctoral fellows. Students partner with a supervising professor and a partner organization to develop a research project. Partner funding is required. Funding begins at $15,000 for 8 months.

The **Mayday Fund** offers grants for research into pain. **There is no deadline; grants are reviewed at the next Trustee’s meeting.**

**Max Bell Foundation** has an ongoing review of grant applications in health and wellness. An LOI is required, and full application is by invitation.

The **Thrasher Foundation** in the US supports children’s medical research; there is no fixed deadline, although decisions are made twice a year, in March and September. International applicants are welcome.

The **R. Howard Webster Foundation** (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.
Research Updates

CIHR News and Updates

Updates to the Tri-Agency Guide on Financial Administration, retroactive to April 1, 2022, the following changes affect the use of grant funds:

- **Travel and travel-related subsistence expenditures**: As part of the Greening Government Strategy, travel expenditures may include the cost of carbon offset credits, according to the Tri-Agency carbon offset statement:

  The Government of Canada recognizes the importance of decreasing greenhouse gas (GHG) emissions in order to reduce the negative impacts of climate change on Canada and globally. In this context, the Agencies encourage grant recipients to consider the necessity of grant-funded travel, and to reduce this when possible. When grant-funded travel is necessary for the research activities, the Agencies encourage grant recipients to use lower-carbon forms of transportation to help reduce GHG emissions. The Agencies consider carbon offset costs (related to air travel or other transportation) to be an appropriate use of grant funds for research/activities that are aligned with the principles and directives of the Tri-Agency Guide on Financial Administration.

University of Toronto Updates

Barbara Fallon appointed U of T's Associate Vice-President, Research.

Other News and updates

Statistics Canada: Canada’s population estimates and dependency ratio: Health regions and peer groups, July 1, 2021.

Statistics Canada has launched the beta version of its Quality of Life Hub; it includes a domain on health.

Statistics Canada combined data for the 2019 and 2020 reference years of the Canadian Health Survey on Seniors.

Upcoming Events

New events and calls for abstracts

The European Academy of Paediatric Societies annual conference will be held October 7-11, 2022, in Barcelona, Spain, and online. The abstract submission deadline has been extended to April 26, 2022.

CIHR Institute of Musculoskeletal Health and Arthritis webinar: Landing the Elusive (First) CIHR Grant: An early career perspective! May 4, 2022, 12 pm – 1 pm eastern. Registration required.

CAG2022 Canadian Association on Gerontology extends abstract submission to May 2, 2022. The 51st annual meeting will be held in Regina, SK, October 20-22, 2022.

WPATH The World Professional Association for Transgender Health 27th scientific symposium will be held in Montreal, QC, September 16-20, 2022. Abstract submission deadline is May 1, 2022.

The Transcultural Nursing Society annual conference will be held in Louisville, KY, November 2-5, 2022; abstract submission deadline has been extended to May 15, 2022.

SMDM The Society for Medical Decision Making’s 44th Annual North American Meeting will be held in Seattle, WA, October 23-26, 2022. Abstract submission deadline is May 23, 2022.

HARC The Health Literacy Annual Research Conference will be held virtually, October 24-25, 2022. Abstract submission deadline for oral and poster presentations, special interest groups and workshop proposals is June 10, 2022.

Diabetes Canada’s annual conference will be held in Calgary, AB, with some virtual components. Date: November 9-12, 2022. Abstract submission deadline is June 8, 2022.

The Academy of Neonatal Nursing Fall 2022 National Neonatal, Advanced Practice, & Mother Baby Nurses Conferences will be held in Palm Springs, FL, September 7-10, 2022. Abstract submission deadline is June 15, 2022.

Calls for Meeting Abstracts Still Open

The International Society of Geriatric Oncology’s annual congress will be held in Geneva, Switzerland. Abstract submission deadline is April 29, 2022. There is an additional track this year on COVID survivorship, research methods and other.
The North American Menopause Society annual meeting will be held October 12-15, 2022, in Atlanta, GA. Abstract submission (oral and poster) deadline is April 30, 2022.

The European Public Health Conference will be held in Berlin, Germany, November 9-12, 2022. The theme is “Strengthening health systems: Improving population health and being prepared for the unexpected”. Abstract submission closes May 1, 2022.

The International Society for Pediatric and Adolescent Diabetes annual congress will be held in Dubai, United Arab Emirates, October 13-16, 2022. Abstract submission deadline is May 2, 2022.

The European Society of Medical Oncology’s Annual Conference will be held in Paris, France, September 9-13, 2022. Abstract submission deadline is May 3, 2022. Abstract topics include palliative care, psycho-oncology, cancer nursing and more.

The World Conference on Lung Health will be held virtually, November 8-11, 2022. Submission for abstracts, satellite sessions, symposia and post-graduate courses and workshops is now open. Deadline is May 4, 2022. Abstract tracks include clinical research, policies, epidemiology, politics, civil society and human rights.

The International Association for Child and Adolescent Psychiatry and Allied Professions will be held December 5-9, 2022, in Dubai. Abstract submission deadline is May 5, 2022.

The International Gynecological Cancer Society annual conference will be held in New York, NY, September 29-October 1, 2022. Abstract submission deadline is May 9, 2022. Topics include breast cancer, ovarian cancer, survivorship, and nursing and healthcare.

The American Heart Association scientific sessions will be held in Chicago, IL, and virtually, November 5-7, 2022. Abstract submission opens April 13, 2022, and closes June 9, 2022.

The American College of Gastroenterology annual meeting will be held virtually and in Charlotte, NC, October 21-26, 2022. Abstract submission deadline is June 20, 2022.

The Canadian Immunization Conference will be held in Ottawa, ON, December 6-8, 2022. Abstract submission deadline for posters, symposia and workshops is July 14, 2022.
Requests for Manuscripts

New Calls for Manuscripts

The Journal of Advanced Nursing (Wiley, 3.187) is calling for papers for a special issue on Social Determinants of Health and Health Outcomes. Submission deadline is July 1, 2022. Topics of interest include expanding the understanding of complex interactions between SDO and Health Outcomes and impact among marginalized populations, papers on marginalized populations that reside in urban or rural settings, culturally responsive, innovative and cutting-edge research methodologies, and more.

The Journal of Pediatric Health Care (Elsevier, IF 1.812) is calling for papers for a special issue on the effects of the COVID-19 pandemic for children and youth with special health care needs. Submission deadline is August 1, 2022.

The Journal of Nursing Scholarship (Sigma, IF 3.176) is calling for papers for a special issue on Substance use disorder and related conditions. Submissions due August 1, 2022. The journal is also calling for papers for a special issue on Gender Diversity and Health. Submissions due September 15, 2022.

The Journal of Urban Health (Springer, IF 3.671) is calling for papers for a special issue on Reducing Poverty and its Consequences. Submission deadline is September 1, 2022.

Women and Birth (Elsevier, IF 3.172) is calling for a special issue on midwifery education: innovation and implementation to support our future profession. Submission deadline is September 1, 2022. Topics of interest include innovative approaches to midwifery education, quality improvement projects to evaluate midwifery education, models of care, and more.

Maternal and Child Health Journal (Springer, IF 2.276) and other journals, including the Journal of Urban Health, are calling for papers for a collection of papers on “Reducing Poverty and its Consequences”; submissions are due September 1, 2022.
