CRIS Calendar of events, including SSHRC Insight Grant: Strategies for Success – July 21, 2022.
Grant and Award Opportunities

Remember – always check grant information carefully

New Canadian Opportunities

The Heart and Stroke Foundation Grant-in-Aid competition deadline is 4 pm Wednesday August 31, 2022. (GIA guidelines here). Maximum per grant is $100,000/year for a maximum of three years. The New Investigator Award (NI guidelines here) deadline is 4 pm Wednesday September 7, 2022. The value is $60,000 per year for a maximum of three years.

SSHRC Knowledge Synthesis Grants on Gender-based Violence have an application deadline of September 1, 2022. Funds available: $30,000 for one year; SSHRC anticipates funding a maximum of 30 grants. UofT Researchers must submit their MRA by noon on August 25, 2022, and their full application on the SSHRC site by 9 am on August 30, 2022.

SSHRC Postdoctoral fellowships application deadline is September 14, 2022. Funds: $45,000 per year for up to two years.

SSHRC Insight Grant application deadline is October 1, 2022. UofT researchers must have an approved MRA by 12 noon on September 22, 2022, and must submit the full application on the SSHRC site by 9 am on September 28, 2022. Funds available in two streams. Stream A: $7,000-$100,000 and Stream B: $101,000-$400,000. Duration: 2-5 years. UofT also offers webinars (UTOR Log in required) July 21 and August 23, 2022. SSHRC offers a webinar in English on September 1, 2022, 1-2:30 pm. Link: https://sshrcvideo.webex.com/sshrcvideo/j.php?MTID=mc7cda895b72b4e140f12319e12ce2873

The Canadian Lung Association grant competition registration deadlines are September 9, 2022, with full applications due October 7, 2022. Funds available:

- Allied Health Research Grant: awardee must secure at least 50% of the budget as matching funds (to a maximum of $10,000).
- Allied Health Research Fellowship Award (masters or doctoral students): annual stipend is based on a 50:50 match between the lung association and the trainee’s supervisor; for full-time students, the Canadian Lung Association will contribute a maximum of $5,000.
- Research Fellowship and Studentships (MD and PhD students): Matching funding is required.

The University of Toronto’s Data Sciences Institute Data Access Grants application deadline is September 30, 2022. Value: Up to $10,000 for up to 8 months. These grants will cover costs for accessing and working with large data sources; projects should bring together researchers from different disciplines to work on projects through a shared trainee or trainees. Applicants must be members of the Data Sciences Institute.
Students: Applying for research funding? Contact the Research Office to get information and approval on proposals and ethics ahead of deadlines, and check with your supervisor!
Email: research.nursing@utoronto.ca

New International Opportunities

Sigma Theta Tau International is now accepting applications for the Association of perioperative Registered Nurses Grant. Application deadline is August 31, 2022. PhD students considering this opportunity should list their supervisor as PI and consult with the research office.

The Greenwall Foundation Faculty Scholars Program 2022-2023 Requests for Proposals is now open. Letters of intent are due by midnight on September 19, 2022. This program offers 50% salary support for three years for approximately three scholars to carry out a specific research proposal and develop their research program.

The Foundation is also seeking proposals for Bridging Bioethics Research and Policymaking, to support innovative and practical integration of bioethics into policy. Application deadline is August 22, 2022.

The Horowitz Foundation for Social Policy 2022 competition deadline is December 1, 2022. This award for PhD students supports projects with a social policy application on either a global or local level. There are special award supplements for projects addressing health and welfare, particularly in urban settings, and science, technology and medicine. Past projects with a health focus include Examining the direct and indirect effects of contraceptive access, Uncounted and invisible: The lives and health of H-2A workers in Ohio, How do states vary in the admission and care of people with mental illness in nursing homes.

Competitions with no fixed deadline

NSERC and Mitacs have developed a joint application process for researchers seeking support from both agencies. It is now possible to request support through Mitacs Accelerate internships as part of the full Alliance application. The Alliance grants system accepts applications at any time – there is no deadline.

NSERC has launched Alliance International Catalyst and Collaboration Grants. Application deadline: No fixed date. Catalyst grants are up to $25,000 for up to one year; and Collaboration Grants are $100,000 per year for up to three years. These grants support Canadian researchers to work with leading international academic researchers, to establish and grow international research collaborations relevant to Natural Sciences and Engineering disciplines. Overall objectives: initiate development of international collaborations; support participation in international collaborative projects of global importance and benefit to Canada.
NSERC Alliance Grants. Application deadline: No fixed date. As of February 2022, Alliance Option 2 is funded 100% by NSERC.

Mitacs Accelerate accepts applications throughout the year. The competition is open to doctoral students and post-doctoral fellows. Students partner with a supervising professor and a partner organization to develop a research project. Partner funding is required. Funding begins at $15,000 for 8 months.

The Mayday Fund offers grants for research into pain. There is no deadline; grants are reviewed at the next Trustee’s meeting.

Max Bell Foundation has an ongoing review of grant applications in health and wellness. An LOI is required, and full application is by invitation.

The Thrasher Foundation in the US supports children’s medical research; there is no fixed deadline, although decisions are made twice a year, in March and September. International applicants are welcome.

The R. Howard Webster Foundation (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.

American Association of Nurse Anesthetists Open Submission Research Grant is to be used for Veterans Administration, Office Based Grants, and the Art Zwerling Grant (research or education in wellness, pain management, and peer assistance/substance use disorder).

CANSSI Ontario offers grants of up to $5,000 to cover covers associated with accessing and working with large data sources. Canssi also offers two grants of up to $10,000 each to support projects using ICES data. Applications are accepted on a rolling basis until two grants have been funded in a given academic year. Trainees or faculty members at Ontario-based universities are eligible to apply. Each proposal must include two faculty members from different academic units (at least one from a stats/biostats department). CANSSI also offers funds ($500-$1,000) to support Ontario workshop/lecture programs in emerging areas of statistical and data sciences.
**NIH Funding**

- Cancer Prevention and Control Clinical Trials Grant Program (R01 Clinical Trial Required); **expires January 8, 2024; NCI; PAR-21-035 (R01)
- NIMH (National Institute of Mental Health) Exploratory/Developmental Research Grant (R21 Clinical Trial Not Allowed); **PA-21-235; expiry date: May 8, 2024
- NICHD (National Institute of Child Health and Human Development) Small Research Grant Program (R03 Basic Experimental Studies with Humans required); **PA-21-231; expires May 8, 2024.
- NICHD Small Research Grant Program (R03 Clinical Trial Required); **PA-21-221; expires May 8, 2024.
- Innovative mental health services research not involving clinical trials (R01, clinical trials not allowed); **PAR-21-316; LOI due 30 days before application due date; check notice for all application dates. **Expire September 8, 2024.
- Dementia care and caregiver support intervention research (RO1, clinical trial required); **PAR-21-307; LOI due 30 days before application due date; check notice for all application dates. **Expire February 14, 2024.
- Pragmatic trials for dementia care and caregiver support (R61/R33 – clinical trial required); **PAR-21-308; LOI due 30 days before application due date; check notice for all application dates. **Expire February 14, 2024.
- Research on Biopsychosocial Factors of Social Connectedness and Isolation on Health, Wellbeing, Illness, and Recovery (PAR-21-352: R01 Clinical Trial Required, **Expiry September 8, 2024); (PAR-21-350: R01 Clinical Trials Not Allowed, **Expires June 22, 2024); (PAR-21-349: R01 Basic Experimental Studies with Humans Required, **Expire June 22, 2024), NCI, NINR, NIA.
- Pilot studies for the spectrum of Alzheimer’s Disease/Alzheimer’s Disease-related dementias and age-related cognitive decline, R61, Clinical Trial optional (PAR-21-360). NIH and NIA. **Expires January 8, 2025.
- Early and late-stage clinical trials for the spectrum of Alzheimer’s disease/Alzheimer’s related Dementias, and age-related cognitive decline, R01 Clinical Trial optional) (PAR-21-359). NIH and NIA. **Expires January 8, 2025.
- Research on current topics in Alzheimer’s disease and its related dementias, R21 Clinical Trial Optional (PAR-22-094) And R01 Clinical Trial Optional (PAR-22-093). NIH and NIA. **Expires November 13, 2024.
- Notice of Special Interest: **Validation of Digital Health and Artificial Intelligence tools for Improved Assessment in Epidemiological, Clinical and Intervention Research. This special notice applies to several NIH Programs, including those sponsored by the National Institute of Nursing Research: e.g., PA-20-185; PA-20-183; PA-20-200 and more. **This opportunity expires March 09, 2024.
- NINDS (National Institute of Neurological Disorders and Stroke) Exploratory Clinical Trials (Clinical Trial Required). **PAR-22-142. Letter of intent required; **expiry March 11, 2025.
- Research opportunities in established cancer epidemiology cohort studies (U01; Clinical trial not allowed). **PAR-22-162; Expire March 1, 2025.
- Cancer epidemiology cohorts: Building the next generation of research cohorts (U01 Clinical trial not allowed): **PAR-22-161. LOI optional; **expiry March 1, 2025.
- Dissemination and implementation research in health (R01 – **PAR-22-105; R21 – **PAR-22-109; and R03– **PAR-22-106). LOI required. **Expires May 2025.
- NIDCR Small research grants for oral health data analysis and statistical methodology development (R03 – **PAR-22-160). Expires May 2025.

**Expiring soon**

- Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34, Clinical trial optional); **RFA-MH-22-180. Letter of intent required 30 days before application due date; full application due October 25, 2022.
• Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34, Clinical Trial Optional); RFA-MH-22-180, expires October 26, 2022; LOI due 30 days before application due date.
• Development of innovative informatics methods and algorithms for cancer research and management (R21 clinical trial optional); RFA-CA-22-021. LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).
• Early-stage development of informatics technologies for cancer research and management (U01 Clinical trial optional); RFA-CA-22-022. LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).

New
• More monitoring of cognitive change, continued (M3C3) (U2C Clinical Trial Optional; RFA-Ag-23-021); Letter of intent due September 20, 2022, with full application due October 20, 2022.
• Cancer prevention and control clinical trials planning grant program (R34, PAR-22-173); Letter of intent due 30 days before application date; expires September 8, 2025.
• Cancer prevention and control clinical trials planning grant program (U34, PAR-22-174); Letter of intent due 30 days before application date; expires September 8, 2025.

Many more opportunities are available in the NIH database. Important: for researchers thinking of applying to the NIH, NIH strongly encourages PIs to contact program officers directly. Program Officers give valuable information and assistance to applicants. They will also help rejected applicants understand the weaknesses of an application.

Standard application deadlines apply. Please check NIH funding applications carefully re: submission deadlines. U of T Researchers must meet internal deadlines; please check with research office before beginning an application.

New CIHR Opportunities

Pre-announcement: Transforming Health with Integrated Care (THINC) – Implementation Science Teams Grants. Program launch June/July 2022. Full application deadline November 1, 2022. (Dates subject to change). This funding opportunity is expected to identify evidence-informed actionable solutions; advance the field of implementation science; build capacity; spark collaboration; foster knowledge mobilization and impact. Relevant research areas: health services and policy; rural, remote and northern communities; multi-morbidity; aging in the right place; transforming health and wellbeing for children and youth; gender-affirming health; integrated care models that improve outcomes related to IMHA mandate; genomics in routine care; and interdisciplinary approaches to equitable, diverse and inclusive integrated care. Funds available; $25,250,000, enough to support approximately 12 teams at a maximum of $400,000 per year for up to five years, for a total of $2,000,000 per grant.

Catalyst Grant: Analysis of Canadian Longitudinal Study in Aging (CLSA) Data (2022). The funds will support projects which promote the use and analysis of CLSA data alone or in combination with other data sets/cohorts. Funds available: Up to $70,000 for up to one year. Registration deadline is August 16, 2022, full application is due September 8, 2022.

Reviewer in Training Program: Application deadline August 12, 2022. This competition is open to early career researchers who have not previously participated. Approximately 120 applicants will be selected by lottery (two opportunities per project grant program committee).
Project Grant: Fall 2022 competition. Registration deadline is August 17, 2022, with full application due September 14, 2022. UofT researchers may have internal deadlines for MRA. All areas of health research aligned with the CIHR mandate are eligible, including global health, indigenous health research, and interdisciplinary research. New this year for interdisciplinary research is the Tri-agency interdisciplinary peer review committee (see mandate) specifically for interagency interdisciplinary research. There are many priority announcements: including for aging (one-year bridge grants); breast cancer research; cancer research; early detection/cancer prevention; health economics and health services research in cancer control; health services and policy research; ageism and health; sex and gender; and more.

Catalyst Grant: Standards for Children and Youth Mental Health Services. Registration deadline September 1, 2022, with full application due September 22, 2022. This funding opportunity will support projects focusing on standards or guiding principles in mental health and/or substance use. Total funds: $4,400,000, enough to fund up to 22 one-year grants (maximum per grant is $200,000 for one year).

Operating Grant: Data analysis Using Existing Databases and Cohorts (2022). Application deadline September 7, 2022. This opportunity supported by the CIHR Institute of Human Development, Child and Youth Health will support projects using data form existing Canadian-based cohorts, etc. and that are relevant to reproductive, maternal, child and/or youth health. Total amount available is $450,000, enough to fund approximately six grants. Maximum amount per grant is $75,000 for up to one year.

The Institute of Human Development, Child and Youth Health’s IHDCYH Talks competition has launched. Registration deadline is September 9, 2022; submission deadline is September 19, 2022. Submit your short video (5 mins or less) of a clear evidence-based message to a lay audience that is designed to have an impact on the health of children, youth and families. First place prize: $3,000; second place: $2,000; 3rd place: $1,000; two special commendations at $500 each.

Operating Grant: Diabetes, Psychosocial Health, Prevention and Self-Management. Application deadline November 1, 2022. There are three research areas: CIHR-JDRF Funding Pool in T1D (four applications will be funded); Indigenous youth and young adults T2D prevention and Self-management (two applications will be funded); and Prevention and self-management for youth and young adults in racialized, low socio-economic status, and ethnocultural communities disproportionately affected by T2D (two applications will be funded). Funds available: $8 million, enough to fund approximately 8 grants. Maximum amount per grant is $250,000 per year for up to 4 years, for a total of $1,000,000 per grant.

Doctoral student funding: PhD students should check with their supervisor about the appropriateness of competitions for their program of research. All competitions have an internal University of Toronto deadline (to be announced) as all applications must go through a university-wide internal competition. The University of Toronto’s School of Graduate Studies is offering information sessions for UofT graduate students on all opportunities:

The Canada Graduate Scholarships - Doctoral Program is open to Canadian citizens, permanent residents, or protected persons. The value is $35,000 per year for up to 36 months. Applicants apply via CIHR, SSHRC, or NSERC. Triagency information to be released soon. Archival information for the CIHR CGS-D is still available.

The SSHRC Doctoral Fellowship is offered through the national Canada Graduate Scholarship Program as well. This means it is subject to an internal review at the University level, and internal deadlines will apply. It is valued at $20,000 for up to four years to a total of $80,000. The SSHRC doctoral awards portal (fellowship and CGS-D) is now open.

The CIHR Fellowship is open to non-citizens, and has an application deadline of October 10, 2022. The value ranges from $20,000 - $40,000 per year depending on qualifications, with a $5,000 research allowance per year. Priority research areas this year include aging; circulatory and respiratory health; First Nations, Inuit, Métis and/or urban Indigenous health; HIV/AIDS and/or STBBI; research and knowledge translation on urban housing and health; and Takeda Canada and CIHR Institute of Genetics rare diseases.

Use your Research Office. We are here to support you. Please let us know when you are beginning the grant process – we are happy to assist with developing budgets and providing editorial, financial, content and methodological feedback. Let us know when you succeed! Email: research.nursing@utoronto.ca

Reminder – these competitions are still open

Canadian Opportunities

The Canadian Cancer Society Health Equity Research Grants – advancing a more accessible and inclusive cancer care system abstract registration (for relevance review) is July 20, 2022; full application due September 8, 2022. Funds available: up to $300,000 per grant over three years (maximum $150,000 per year). Total funds available for this opportunity: $3 million.

The next SSHRC Connection grant deadline is August 1, 2022 (UofT Researchers must submit by July 25, 2022). This grant requires 50% matching funds. UofT Researchers with an international component are eligible to
apply for internal funding of up to $5,000. Deadline for internal funding application is July 8, 2022. Details can be found on the [internal funding site](#) (UTORID login required).

**International Opportunities**

![ResMed Foundation](#) **ResMed Foundation** (Supporting sleep and respiratory health through research and education) **clinical research proposal application deadline is September 15, 2022.**

**Pre-launch announcement:** **PCORI** is launching its phased large awards for comparative effectiveness research – cycle 3, 2022, on September 7, 2022. An applicant town hall will be held September 12, 2022. **Letter of intent deadline is October 4, 2022, with full application due January 10, 2023.** The opportunity is for applications for high-quality comparative clinical effectiveness research projects, either individual-level or cluster randomized controlled trials.

![Alex’s Lemonade Stand Foundation](#) **Alex’s Lemonade Stand Foundation** **Young Investigator Grant competition deadline is December 12, 2022.** Funds available: US$50,000 per year for up to three years.

**CIHR Grant Opportunities**

Institute Community Support: **Planning and Dissemination Grants:** **Application deadline July 27, 2022.** Individual CIHR institutes have funding ranging from $10,000 to $50,000. Funds available: $1,278,500, enough to fund approximately 91 grants. Grant duration: one year.

- **Aging:** total funds: $30,000; max $10,000 per grant; Health and wellness over the trajectory of aging; or Facing the complex health challenges of an older population;
- **Cancer:** total funds: $40,000, max $10,000 per grant; priority given to events/activities that align with cancer prevention; targeting high fatality/hard to treat cancers; health economics/health services research in cancer control; equity in cancer prevention and control;
- **Circulatory and Respiratory Health:** total funds $45,000; max $15,000 per grant; focus on strategic priorities (preparing future capacity, accelerating knowledge through collaboration, strengthening indigenous health research, enhancing EDI in research, catalyzing impact through knowledge mobilization); and **visiting speaker** awards ($3,500 for events held in territories; $2,500 for the rest of Canada; one will be awarded to each of Atlantic, central, prairies, north, and west regions)
- **Genetics:** total funds: $60,000; max $15,000 per grant, four awards will be made
- **Gender and health:** total funds $40,000, max $20,000 per grant; focus on facilitating uptake of sex, gender or intersectionality considerations in the context of health research, policy and practice
- **IHDCYH** (child and youth health) general pool: total funds: $100,000; max per grant $10,000; minimum of four grants reserved for early career investigators
- **IHDCYH youth health research:** max funds $100,000; max per grant $10,000; maximum of five will have a primary focus on mental health.
- **Health services and policy research:** total funds $50,000; max per grant $10,000. A minimum of two grants will be reserved for early career researchers.
- **Infection and immunity:** total funds: $100,000; max per grant, $20,000. One grant will be reserved for an ECR.
- **Indigenous Peoples’ Health:** total funds: $150,000; max per grant: $50,000.
- **Musculoskeletal health and arthritis**: total funds: $120,000; max per grant: $20,000. Areas of interest: open science; general pain, indigenous health research related to pain; patient engagement; any institute mandate area. A minimum of two will be funded in general pain pool.

- **Nutrition, metabolism and diabetes**: total funds: $90,000; max per grant: $10,000.

- **Neurosciences, mental health and addiction**: $100,000; max per grant $10,000.

- **HIV AIDS and/or other STBBIs**: total funds: $140,000; max per grant: $20,000.

- **Personalized health**: total fund: $40,000; max per grant: $20,000. Team must include one or more individuals who were NPA, PA co-applicant, or knowledge user on grants previously funded by CIHR through the personalized health initiative.

Training Grant: **Patient-Oriented Research Training Grant** – Health System Stream. **Application Deadline September 8, 2022.** A total of $2.4 million is available, enough to fund up to 12 grants. Maximum per grant is $100,000 for up to two years (total of $200,000 per grant). The aim of the grant is to build capacity for uptake of patient-oriented research by providing non-governmental Canadian health systems or related organizations to embed POR principles, practices and findings within Canadian health care context. Applications should address knowledge mobilization and integration of evidence in health decisions; training and capacity development; and indigenous health research.

The **2022-2023 Banting Postdoctoral Fellowship** application deadline is September 9, 2022. UofT applicants will need to meet internal deadlines. The award is worth $70,000 per year for two years. More detailed information can be found at the [Banting website](#). It is open to Canadian citizens, permanent residents of Canada and foreign citizens. The University of Toronto is offering UofT graduate students a workshop on how to write a successful [Banting PDF application](#) on June 21, 2022, 12 pm – 1:30 pm.

Institute of Nutrition, Metabolism and Diabetes **Training and Community Support Grant (2022/2023)** application deadline is September 30, 2022. Funds available: up to $50,000 per grant. This grant will support INMD research communities to build training programs that will support comprehensive training; promote a greater understanding of emerging research and knowledge exchange approaches; increase training and professional development; and consider best practices in EDI in training.

Catalyst Grant: **Policy Research for Health System Transformation.** **Full application deadline October 4, 2022.** The application form opens on June 30, 2022. This funding opportunity will support one-year Policy Research for Health System Transformation grants that generate evidence to inform macro-level policies to support high-performing health care and public health systems in Canada with the aim of advancing the Quadruple aim (improved population health outcomes, better patient and provider experience, and increased value) and health equity. Value: $150,000 for one year. Approximately 24 grants will be awarded. Additional funds may be available from external partners, and supplemental funding of $75,000 will support highest overall ranked fundable application to lead the Knowledge Mobilization Synthesis Project. A webinar will be held on Friday June 17, 2022, at 2 pm.

### Research Updates

**CIHR News and Updates**

- **Multifactor Authentication** is coming to ResearchNet as of July 21, 2022. Users will have to complete a MFA process when logging in: a code is sent to the email associated with a user’s ResearchNet account profile.
• On June 30, 2022, CIHR launched the Equity, Diversity, and Inclusion Self-Identification Questionnaire (previously the Equity and Diversity Questionnaire).
• The Institute of Population and Public Health has released its Impact Report: Public Health is the Future.
• CIHR Spring 2022 Project Grant results have been released.

**Other News and updates**

• Statistics Canada’s Health page
• Health Canada has released “How to integrate intersectionality theory in quantitative health equity analysis? A rapid review and checklist of promising practices”.
• NINR Strategic Plan released.

**Upcoming Events**

*New events and calls for abstracts*

**ANIA** The 2023 American Nursing Informatics Association annual conference will be held May 10-12, 2023, in Louisville, KY. Speaker/podium abstracts are due July 30, 2022, and poster abstracts are due December 15, 2022.

**EMUC22** European Society of Medical Oncology’s Multidisciplinary Congress on Urological Cancers (EMUC22) will be held in Budapest, Hungary, November 10-13, 2022. Abstract submission deadline is August 1, 2022.

**Children’s Healthcare Canada** Children’s Healthcare Canada presents Immunizing Children with Confidence on September 13, 2022. Posters due August 1, 2022.

**Society of Critical Care Medicine** The Society of Critical Care Medicine annual congress will be held in San Francisco, CA, January 21-24, 2023. Abstract submission deadline is August 3, 2022.

**AACHN** The American Association of Occupational Health Nurses annual conference will be held in San Antonio, TX, March 13-15, 2023. Submission deadline for podium presentation is August 12, 2022, and for posters is August 26, 2022.

**QIN** The International Forum on Quality and Safety in Healthcare will be held in Copenhagen, Denmark, May 15-17, 2023. Deadline for call for speakers is August 24, 2022.
Expanding Horizons: National Institute on Infant and Early Mental Health will be held in Toronto, ON, April 26-28, 2023. Call for papers closes September 19, 2022.

**AD/PD™ 2023** The International Conference on Alzheimer’s and Parkinson’s Diseases and related neurological disorders will be held March 28-April 1, 2023, in Gothenburg, Sweden. Abstract submission deadline is September 21, 2022.

The XX ISA World Congress of Sociology will be held in Melbourne, Australia, June 25-July 1, 2023. Abstract submission deadline is September 30, 2022.

The fourth annual Canadian Arthritis Research Conference will be held virtually on February 15-16, 2023. Abstract submission deadline is October 3, 2022. Research presentation days are January 31, February 6, and February 14, 2023. Keynote and Symposia will be held on February 15 and 16, 2023.

The Canadian Immunization Conference has been postponed to April 25-27, 2023, in Ottawa, ON. The call for submissions deadline has been extended to October 5, 2022.

The Operating Room Nurses Association of Canada annual conference will be held in Quebec City, April 26-30, 2023. Abstract submission deadline is November 1, 2022.

 Calls for Meeting Abstracts Still Open

The 2022 Symposium for Scholarship of Teaching and Learning will be held November 10-12, 2022, at Mount Royal University, Calgary, AB.

THE WILSON CENTRE The Richard K. Reznick Wilson Centre Virtual Research Week 2022 will be held October 19-21, 2022. Abstract submission deadline is July 25, 2022. The focus is on healthcare education and practice.
