CRIS Calendar of events, including “What is a data management plan and why do I need one?” June 23, 2022, 1:30 – 3:00 pm.

Grant and Award Opportunities

Remember – always check grant information carefully

New Canadian Opportunities

The Canadian Cancer Society CCS Breakthrough Team Grants: Transforming Low Survival Cancers letter of
intent due June 22, 2022; registration deadline of July 26, 2022, and full application due October 19, 2022. There will be a webinar on June 28, 2022. CCS is also offering Health Equity Research Grants – advancing a more accessible and inclusive cancer care system. Abstract registration is July 20, 2022; full application due (invitation only) September 8, 2022. Funds available: up to $300,000 per grant over three years (maximum $150,000 per year). Total funds available for this opportunity: $3 million.

**TERRY FOX** The Terry Fox Research Institute New Investigator Award registration of intent deadline is June 30, 2022, with full submission due September 9, 2022. This award supports outstanding new researchers in close collaboration and mentorship with Canadian cancer research groups. Funds available: UP to $150,000 per year for three years. The New Frontiers Program Project Grant supports projects of excellence that contribute to important topics of relevance to cancer research, discovering and exploring new knowledge with the potential to transform cancer diagnosis, treatment and/or understanding of cancer biology. Funds available: $400,000 in year 1 and up to $600,000 per year for the next three years. Investigators should be proposing a new thematic area of cancer research. **Letter of intent is due August 2, 2022.** Full application is by invitation.

Brain Canada in collaboration with the Alzheimer’s Association launches the Advancing Research on Care and Outcome Measurement 2.0 (ARcOM-2) funding program. This is an international and collaborative competition. Goal is to address significant gaps in care and outcome measurement. Areas of interest include care preferences, behavioral expressions, quality metrics and system of care in Alzheimer’s disease or other dementia. Brain Canada will co-fund up to five Canadian-led teams who meet peer review recommendations. Funds available: USD$250,000 over a period of up to two years. **Letter of intent deadline is July 13, 2022; with full application due September 9, 2022.**

Cystic Fibrosis Canada’s deadline for letter of intent (basic or clinical research grant) is August 1, 2022, with full application due October 1, 2022.

NSERC Discovery grant letter of intent deadline is August 2, 2022. **Webinars** will be offered June 23 and July 5, 2022. **Full application** due November 1, 2022.

**Students:** Applying for research funding? Contact the Research Office to get information and approval on proposals and ethics ahead of deadlines, and check with your supervisor! Email: research.nursing@utoronto.ca
New International Opportunities

The Greenwall Foundation has launched a call for proposals for the Making a Difference Fall 2022 program. The aim is to make a difference in real-world bioethics dilemmas. **Letters of intent are due June 27, 2022.**

The Association of Rehabilitation Nurses is offering two **Quality Improvement Grants** of US$1,000 each. The focus is on projects that have the potential to change systems of care within an organizational structure. **Application deadline is July 15, 2022.**

ResMed Foundation (Supporting sleep and respiratory health through research and education) **clinical research proposal application deadline is September 15, 2022.**

Competitions with no fixed deadline

NSERC and Mitacs have developed a joint application process for researchers seeking support from both agencies. It is now possible to request support through Mitacs Accelerate internships as part of the full Alliance application. The **Alliance** grants system accepts applications at any time – there is no deadline.

NSERC has launched **Alliance International Catalyst and Collaboration Grants. Application deadline: No fixed date.** Catalyst grants are up to $25,000 for up to one year; and Collaboration Grants are $100,000 per year for up to three years. These grants support Canadian researchers to work with leading international academic researchers, to establish and grow international research collaborations relevant to Natural Sciences and Engineering disciplines. Overall objectives: initiate development of international collaborations; support participation in international collaborative projects of global importance and benefit to Canada.

NSERC **Alliance Grants. Application deadline: No fixed date.** As of February 2022, Alliance Option 2 is funded 100% by NSERC.

Mitacs Accelerate accepts applications throughout the year. The competition is open to doctoral students and post-doctoral fellows. Students partner with a supervising professor and a partner organization to develop a research project. Partner funding is required. Funding begins at $15,000 for 8 months.
The Mayday Fund offers grants for research into pain. **There is no deadline; grants are reviewed at the next Trustee’s meeting.**

**Max Bell Foundation** Max Bell Foundation has an ongoing review of grant applications in health and wellness. An LOI is required, and full application is by invitation.

The Thrasher Foundation in the US supports children’s medical research; there is no fixed deadline, although decisions are made twice a year, in March and September. International applicants are welcome.

The R. Howard Webster Foundation (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.

AANA American Association of Nurse Anesthetists [Open Submission Research Grant](#) is to be used for Veterans Administration, Office Based Grants, and the Art Zwerling Grant (research or education in wellness, pain management, and peer assistance/substance use disorder).

CANSSI Ontario offers grants of up to $5,000 to cover covers associated with accessing and working with large data sources. Canssi also offers two grants of up to $10,000 each to support projects using ICES data. **Applications are accepted on a rolling basis** until two grants have been funded in a given academic year. Trainees or faculty members at Ontario-based universities are eligible to apply. Each proposal must include two faculty members from different academic units (at least one from a stats/biostats department). CANSSI also offers funds ($500-$1,000) to support Ontario workshop/lecture programs in emerging areas of statistical and data sciences.

**NIH Funding**

- Cancer Prevention and Control Clinical Trials Grant Program (R01 Clinical Trial Required); **expires January 8, 2024; NCI; PAR-21-035** (R01)
- NIMH (National Institute of Mental Health) Exploratory/Developmental Research Grant (R21 Clinical Trial Not Allowed); **PA-21-235; expiry date: May 8, 2024**
- NICHD (National Institute of Child Health and Human Development) Small Research Grant Program (R03 Basic Experimental Studies with Humans required); **PA-21-231; expires May 8, 2024.**
- NICHD Small Research Grant Program (R03 Clinical Trial Required); **PA-21-221; expires May 8, 2024.**
- Innovative mental health services research not involving clinical trials (R01, clinical trials not allowed); **PAR-21-316; LOI due 30 days before application due date; check notice for all application dates. Expiry September 8, 2024.**
- Dementia care and caregiver support intervention research (RO1, clinical trial required); **PAR-21-307; LOI due 30 days before application due date; check notice for all application dates. Expiry February 14, 2024.**
- Pragmatic trials for dementia care and caregiver support (R61/R33 – clinical trial required); PAR-21-308; LOI due 30 days before application due date; check notice for all application dates. Expiry February 14, 2024.
- Research on Biopsychosocial Factors of Social Connectedness and Isolation on Health, Wellbeing, Illness, and Recovery (PAR-21-352: R01 Clinical Trial Required, Expires September 8, 2024); (PAR-21-350: R01 Clinical Trials Not Allowed, Expires June 22, 2024); (PAR-21-349: R01 Basic Experimental Studies with Humans Required, Expires June 22, 2024), NCI, NINR, NIA.
- Pilot studies for the spectrum of Alzheimer’s Disease/Alzheimer’s Disease-related dementias and age-related cognitive decline, R61, Clinical Trial optional (PAR-21-360). NIH and NIA. Expires January 8, 2025.
- Early and late-stage clinical trials for the spectrum of Alzheimer’s disease/Alzheimer’s related Dementias, and age-related cognitive decline, R01 Clinical Trial optional (PAR-21-359). NIH and NIA. Expires January 8, 2025.

Notice of Special Interest: Validation of Digital Health and Artificial Intelligence tools for Improved Assessment in Epidemiological, Clinical and Intervention Research. This special notice applies to several NIH Programs, including those sponsored by the National Institute of Nursing Research: e.g., PA-20-185; PA-20-183; PA-20-200 and more. This opportunity expires March 09, 2024.
- NINDS (National Institute of Neurological Disorders and Stroke) Exploratory Clinical Trials (Clinical Trial Required). PAR-22-142. Letter of intent required; expiry March 11, 2025.
- Research opportunities in established cancer epidemiology cohort studies (U01; Clinical trial not allowed). PAR-22-162; Expiry March 1, 2025.
- Cancer epidemiology cohorts: Building the next generation of research cohorts (U01 Clinical trial not allowed): PAR-22-161. LOI optional; expiry March 1, 2025.
- NIDCR Small research grants for oral health data analysis and statistical methodology development (R03 – PAR-22-160). Expires May 2025.

Expiring soon
- Enhancing social connectedness and ameliorating loneliness to prevent and treat SUD and support recovery. RFA-DA-23-009 (R21) and RFA-DA-23-010 (R34). For both: LOI due July 15, 2022, and full application due August 15, 2022.
- Development of innovative informatics methods and algorithms for cancer research and management (R21 clinical trial optional); RFA-CA-22-021. LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).
- Early-stage development of informatics technologies for cancer research and management (U01 Clinical trial optional); RFA-CA-22-022. LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).
- Advanced development of informatics technologies for cancer research and management (U24 clinical trial optional). RFA-CA-22-023; LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).
- Sustained support for informatics technologies for cancer research and management (U24 clinical trial optional). RFA-CA-22-024; LOI required. Expiry November 18, 2022 (two rounds of application for new submissions).
- Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34, Clinical Trial Optional); RFA-MH-22-180, expires October 26, 2022; LOI due 30 days before application due date.
New

- Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34, Clinical trial optional); RFA-MH-22-180. Letter of intent required 30 days before application due date; full application due October 25, 2022.

Many more opportunities are available in the NIH database. Important: for researchers thinking of applying to the NIH, NIH strongly encourages PIs to contact program officers directly. Program Officers give valuable information and assistance to applicants. They will also help rejected applicants understand the weaknesses of an application.

Standard application deadlines apply. Please check NIH funding applications carefully re: submission deadlines. U of T Researchers must meet internal deadlines; please check with research office before beginning an application.

New CIHR Opportunities

Pre-announcement: National Standards for Mental Health Services Catalyst Grant: Towards Pan-Canadian Standards for Children and Youth Mental Health Services. This funding opportunity will support projects focusing on standards or guiding principles in mental health and/or substance use. Total funds: $4,400,000, enough to fund up to 22 one-year grants (maximum per grant is $200,000 for one year). Anticipated timelines: Launch: June 2022; Registration: August 2022; application: September 2022.

Pre-announcement: Transforming Health with Integrated Care (THINC) – Implementation Science Teams Grants. Program launch June 2022. Webinar planned for June 17, 2022, at 2-3:30 (Join). Full application deadline November 1, 2022. (Dates subject to change). This funding opportunity is expected to identify evidence-informed actionable solutions; advance the field of implementation science; build capacity; spark collaboration; foster knowledge mobilization and impact. Relevant research areas: health services and policy; rural, remote and northern communities; multi-morbidity; aging in the right place; transforming health and wellbeing for children and youth; gender-affirming health; integrated care models that improve outcomes related to IMHA mandate; genomics in routine care; and interdisciplinary approaches to equitable, diverse and inclusive integrated care. Funds available; $25,250,000, enough to support approximately 12 teams at a maximum of $400,000 per year for up to five years, for a total of $2,000,000 per grant.

Institute Community Support: Planning and Dissemination Grants: Application deadline July 27, 2022. Individual CIHR institutes have funding ranging from $10,000 to $50,000. Funds available: $1,278,500, enough to fund approximately 91 grants. Grant duration: one year.

- Aging: total funds: $30,000; max $10,000 per grant; Health and wellness over the trajectory of aging; or Facing the complex health challenges of an older population;
- Cancer: total funds: $40,000, max $10,000 per grant; priority given to events/activities that align with cancer prevention; targeting high fatality/hard to treat cancers; health economics/health services research in cancer control; equity in cancer prevention and control;
- Circulatory and Respiratory Health: total funds $45,000; max $15,000 per grant; focus on strategic priorities (preparing future capacity, accelerating knowledge through collaboration, strengthening indigenous health research, enhancing EDI in research, catalyzing impact through knowledge mobilization); and visiting speaker awards ($3,500 for events held in territories; $2,500 for the rest of Canada; one will be awarded to each of Atlantic, central, prairies, north, and west regions)
• **Genetics**: total funds: $60,000; max $15,000 per grant, four awards will be made
• **Gender and health**: total funds $40,000, max $20,000 per grant; focus on facilitating uptake of sex, gender or intersectionality considerations in the context of health research, policy and practice
• **IHDCYH** (child and youth health) general pool: total funds: $100,000; max per grant $10,000; minimum of four grants reserved for early career investigators
• **IHDCYH youth health research**: max funds $100,000; max per grant $10,000; maximum of five will have a primary focus on mental health.
• **Health services and policy research**: total funds $50,000; max per grant $10,000. A minimum of two grants will be reserved for early career researchers.
• **Infection and immunity**: total funds: $100,000; max per grant, $20,000. One grant will be reserved for an ECR.
• **Indigenous Peoples’ Health**: total funds: $150,000; max per grant: $50,000.
• **Musculoskeletal health and arthritis**: total funds: $120,000; max per grant: $20,000. Areas of interest: open science; general pain, indigenous health research related to pain; patient engagement; any institute mandate area. A minimum of two will be funded in general pain pool.
• **Nutrition, metabolism and diabetes**: total funds: $90,000; max per grant: $10,000.
• **Neurosciences, mental health and addiction**: $100,000; max per grant $10,000.
• **HIV AIDS and/ or other STBBIs**: total funds: $140,000; max per grant: $20,000.
• **Personalized health**: total fund: $40,000; max per grant: $20,000. Team must include one or more individuals who were NPA, PA co-applicant, or knowledge user on grants previously funded by CIHR through the personalized health initiative.

Institute of Nutrition, Metabolism and Diabetes Training and Community Support Grant (2022/2023) application deadline is September 30, 2022. Funds available: up to $50,000 per grant. This grant will support INMD research communities to build training programs that will support comprehensive training; promote a greater understanding of emerging research and knowledge exchange approaches; increase training and professional development; and consider best practices in EDI in training.

Policy Research for Health System Transformation. Full application deadline October 4, 2022. The application form opens on June 30, 2022. This funding opportunity will support one-year Policy Research for Health System Transformation grants that generate evidence to inform macro-level policies to support high-performing health care and public health systems in Canada with the aim of advancing the Quadruple aim (improved population health outcomes, better patient and provider experience, and increased value) and health equity. Value: $150,000 for one year. Approximately 24 grants will be awarded. Additional funds may be available from external partners, and supplemental funding of $75,000 will support highest overall ranked fundable application to lead the Knowledge Mobilization Synthesis Project. A webinar will be held on Friday June 17, 2022, at 2 pm.

Use your Research Office. We are here to support you. Please let us know when you are beginning the grant process – we are happy to assist with developing budgets and providing editorial, financial, content and methodological feedback. Let us know when you succeed! Email: research.nursing@utoronto.ca
Reminder – these competitions are still open

**Canadian Opportunities**

The New Frontiers in Research Fund 2022 Exploration competition has launched. **Notice of intent deadline is June 28, 2022**, with full application due September 13, 2022. UofT researchers must submit an MRA by June 21, 2022, and their full NOI by June 27, 2022. For the full application, the internal deadline is **September 6, 2022**. Value: up to $125,000 (including direct costs) per year for up to two years. A minimum of 100 awards will be made and early career researchers will receive a proportionate number. NOI Webinar (English): May 27, 2022, 1 -3 pm Eastern; Full application July 19, 1 -3 pm Eastern.

The **2022 ALS Canada – Brain Canada Discovery Grant Program** application **deadline is July 5, 2022**. The funds will support research on causes or treatments as well as research to maximize function, minimize disability and optimise quality of life through symptom management and family support. Stream 1: novel ideas, value: $125,000; Stream 2: more ambitious projects, value: up to $300,000.

The **U of T Data Sciences Institutes Catalyst Grants** letter of intent deadline is **July 15, 2022**, with full application (invitation only) due on due November 4, 2022. Funds available: UP to $100,000 for a grant duration of 1 to 2 years. Focus of grant; Development of data science methodology and/or its innovative application.

The next **SSHRC Connection** grant deadline is **August 1, 2022** (UofT Researchers must submit by July 25, 2022). This grant requires 50% matching funds. UofT Researchers with an international component are eligible to apply for internal funding of up to $5,000. Deadline for internal funding application is July 8, 2022. Details can be found on the [internal funding site](#) (UTORID login required).

**International Opportunities**

**Pfizer Global Medical Grants** has released a request for proposals for research on **equity in access** to cancer cachexia clinical trials. **Application deadline is June 30, 2022**. Funds available: up to $100,000 per project. Pfizer anticipates funding approximately six grants.

**Sigma Research Grants** with a **July 1, 2022**, application deadline are the Doris Bloch Research Award; Joan K. Stout Research Grant; and the American Nurses Credentialing Center Evidence-based Practice Implementation Grant. The **Sigma/Association of perioperative registered Nurses (AORN) grant** has a **deadline of August 31, 2022**. Please review eligibility carefully; PhD students should speak to their supervisor and ensure their supervisor is listed as a co-principal investigator on the grant.

**Davis Phinney Foundation** (US) Parkinson’s Disease quality of life grant competition **letter of intent deadline is July 15, 2022**. Full applications (by invitation) due by October 14, 2022. The priority area is weight/strength/resistance training and Parkinson’s.
Pre-launch announcement: PCORI is launching its phased large awards for comparative effectiveness research – cycle 3, 2022, on September 7, 2022. An applicant town hall will be held September 12, 2022. Letter of intent deadline is October 4, 2022, with full application due January 10, 2023. The opportunity is for applications for high-quality comparative clinical effectiveness research projects, either individual-level or cluster randomized controlled trials.

Alex’s Lemonade Stand Foundation Young Investigator Grant competition deadline is December 12, 2022. Funds available: US$50,000 per year for up to three years.

**CIHR Grant Opportunities**

**Mental health in the early years implementation science team grants.** Application deadline: June 23, 2022. Research Goal: To fund implementation science research that enhances our understanding of how to improve the systematic and equitable implementation of evidence-based interventions for young children (ages 0-5) by: promotion of positive socio-emotional development and mental health in early childhood; prevention of early childhood mental health issues; treatment of young children living with or at risk of developing mental health issues through integrated, coordinated and person-oriented care. Funds available: $6,250,000, enough to fund approximately five grants. Maximum per grant is $250,000 per year for up to five years, for a total of $1,250,000 per grant.

Training Grant: **Patient-Oriented Research Training Grant** – Health System Stream. **Application Deadline September 8, 2022.** A total of $2.4 million is available, enough to fund up to 12 grants. Maximum per grant is $100,000 for up to two years (total of $200,000 per grant). The aim of the grant is to build capacity for uptake of patient-oriented research by providing non-governmental Canadian health systems or related organizations to embed POR principles, practices and findings within Canadian health care context. Applications should address knowledge mobilization and integration of evidence in health decisions; training and capacity development; and indigenous health research.

The **2022-2023 Banting Postdoctoral Fellowship application deadline is September 9, 2022.** UofT applicants will need to meet internal deadlines. The award is worth $70,000 per year for two years. More detailed information can be found at the Banting website. It is open to Canadian citizens, permanent residents of Canada and foreign citizens. The University of Toronto is offering UofT graduate students a workshop on how to write a successful Banting PDF application on June 21, 2022, 12 pm – 1:30 pm.

**Research Updates**

**CIHR News and Updates**

The **Tricouncil Agencies** have identified the funding opportunities that will require applicants to submit data management plans. For CIHR, these are network grants in skin health and muscular dystrophy, virtual care/digital health team grants and data science for equity (anticipated launch for all fall 2022 or early winter 2023). For SSHRC, it will be the partnership grants stage 2 (anticipated launch summer 2023).

**Dr. Margo Greenwood** has been appointed interim Scientific Director of the CIHR Institute of Indigenous Peoples’ Health.
Institute of Circulatory and Respiratory Health has launched its new strategic plan, Partnerships for Better Health.

University of Toronto Updates

The University of Toronto is lifting mask requirements as of July 1, 2022 (subject to any changes in public health guidance).

Other News and updates

Statistics Canada’s Health page

Statistics Canada continues to release data from the 2021 census, including a portrait of Canada’s growing population aged 85 and older.

The NIH’s National Institute of Nursing Research May 2022 Advisory Council Video is now available. The Council provides recommendations on the direction and support of the nursing, biomedical, social and behavioral research that forms the evidence base for nursing practice.

Upcoming Events

New events and calls for abstracts

The 2022 Symposium for Scholarship of Teaching and Learning will be held November 10-12, 2022, at Mount Royal University, Calgary, AB.

THE WILSON CENTRE The Richard K. Reznick Wilson Centre Virtual Research Week 2022 will be held October 19-21, 2022. Abstract submission deadline is July 25, 2022. The focus is on healthcare education and practice.

The International Pediatric Association Congress and the 69th Annual Conference of The Indian Academy of Pediatrics will be held in Gandhinagar Gujarat, India, February 19-23, 2022. Abstract submission deadline is July 31, 2022. Topics of interest include adolescent medicine, Child Health and survival: Global health, critical care, mental health, and much more.
The American Psychiatry Association’s annual meeting will be held in San Francisco, CA, May 20-24, 2023. **Abstract submission deadline is September 1, 2022.** The theme is “Innovate, collaborate, motivate: Charting the future of mental health”.

The International Conference on Alzheimer’s and Parkinson’s Diseases and related neurological disorders will be held March 28 – April 1, 2023, in Gothenburg, Sweden. **Abstract submission deadline is September 21, 2022.** Topics of interest include patient care and support.

The European Pain Federation’s 13th Congress will be held in Budapest, Hungary, September 20-23, 2023. **Workshop submission deadline is September 9, 2022.** Topics include: topical workshop, debate workshop, demonstration workshop.

The American Society of PeriAnesthesia Nurses 42nd National Conference will be held in Denver, CO, April 27-030, 2023. **Abstract submission deadline is October 15, 2022.**

**Calls for Meeting Abstracts Still Open**

The 14th annual Conference on Health Policy Statistics, organized by the American Statistical Association, will be held January 9-11, 2023, in Scottsdale, AZ. The theme is “Upgrading the pipeline from health data to health policy.” Roundtable and poster online abstract **submission deadline is June 30, 2022.**

The ESMO Asia Cancer Congress will be held in Singapore, December 2-4, 2022. **Abstract submission deadline is July 12, 2022.** Abstract categories include breast cancer, haematological malignancies, palliative care, supportive care, and more.

The Canadian Immunization Conference will be held in Ottawa, ON, December 6-8, 2022. **Abstract submission deadline for posters, symposia and workshops is July 14, 2022.**

The Canadian Health Workforce Virtual Conference 2022 will be held December 6-8, 2022. **Abstract submission deadline is August 1, 2022.**

The Canadian Gerontological Nursing Association 22nd biennial conference will be held in Niagara Falls, ON, April 20-22, 2023. **Abstract submission deadline is September 30, 2022.**
Requests for Manuscripts

New Calls for Manuscripts

The Gerontologist (Oxford, IF 5.271) is calling for papers for a special issue on Climate Change and Aging are due August 1, 2022, with full manuscript due January 10, 2023.

The Journals of Gerontology series b (Oxford, IF 4.077) is calling for a special issue on Immigration and Aging (Socio-cultural, health and economic forces shaping the lives of older immigrants); abstract submission deadline is August 1, 2022, with full manuscript due October 1, 2022.

Family Practice (Oxford, IF 2.267) is calling for manuscripts for a themed issue on Climate Crisis and Primary Health Care. Submission deadline is September 1, 2022.

Continuing Calls for Manuscripts

Public Health Elsevier, IF 2.477) is calling for submissions for two special issues. For the first, on Health Inequalities, editors are interested in studies investigating impacts on socioeconomic inequalities in health and inequalities between other social groups. Submission deadline is June 30, 2022. The second special issue is on Public Health Emergencies. Editors are interested in a very wide range of topics, with original research and reviews. Submission deadline is September 30, 2022.

Nursing in Critical Care (Elsevier, IF 3.325) is calling for papers for a special issue on rehabilitation in and after critical care. Manuscript submission deadline is July 1, 2022.

The Journal of Advanced Nursing (Wiley, 3.187) is calling for papers for a special issue on Social Determinants of Health and Health Outcomes. Submission deadline is July 1, 2022. Topics of interest include expanding the understanding of complex interactions between SDO and Health Outcomes and impact among marginalized populations, papers on marginalized populations that reside in urban or rural settings, culturally responsive, innovative and cutting-edge research methodologies, and more.

The Journal of Pediatric Health Care (Elsevier, IF 1.812) is calling for papers for a special issue on the effects of the COVID-19 pandemic for children and youth with special health care needs. Submission deadline is August 1, 2022.
The Journal for Nurse Practitioners (IF 0.767) is calling for papers for a special issue on Endocrine Conditions. **Manuscript submission deadline is August 1, 2022.**

The Journal of Nursing Scholarship (Sigma, IF 3.176) is calling for papers for a special issue on Substance use disorder and related conditions. **Submissions due August 1, 2022.** The journal is also calling for papers for a special issue on Gender Diversity and Health. **Submissions due September 15, 2022.**

The Journal of Urban Health (Springer, IF 3.671) is calling for papers for a special issue on Reducing Poverty and its Consequences. **Submission deadline is September 1, 2022.**

Women and Birth (Elsevier, IF 3.172) is calling for a special issue on midwifery education: innovation and implementation to support our future profession. Submissions are due September 1, 2022. Topics of interest include innovative approaches to midwifery education, quality improvement projects to evaluate midwifery education, models of care, and more.

Maternal and Child Health Journal (Springer, IF 2.276) and other journals, including the Journal of Urban Health, are calling for papers for a collection of papers on “Reducing Poverty and its Consequences”; submissions are due September 1, 2022. Maternal and Child Health Journal is also calling for submissions for “Perinatal Substance use”; deadline is September 1, 2022.

Perspectives in Public Health (Sage, IF 4.940) is calling for papers for two special issues. **Manuscript deadline for both is September 23, 2022.** Spatial planning for improved health and wellbeing is interested in papers about neighbourhood design, health and care settings, health implications of climate change and sustainability, and workforce development on planning for health practice. Guest editor is Michael Chang. Recovery outside of mental health services: what can public health contribute? Topics of interest include studies providing insights into reasons for service avoidance, studies providing insights into experiences of people affected by mental health problems but not being treated by mental health services, and more. Guest editor is Stefan Rennick-Egglestone.

Bioethics (Wiley, IF 1.898) is calling for papers for a special issue on reproductive technologies and family ties. **Submission deadline is September 30, 2022.**
