CRIS Calendar of events, including What is a data management plan and why do I need one on September 22, 2022, 2:30 pm – 4:30 pm.
Grant and Award Opportunities

Remember – always check grant information carefully

New Canadian Opportunities

**CONNAUGHT** The Connaught Innovation Award competition has a letter of intent deadline of September 15, 2022, with full application due by October 20, 2022. This competition is open to UofT researchers only – UTORID log in required to access grant information page. Funds available: up to $100,000; applicants requesting more than $50,000 will have to show strong industry interest/leveraged funding/investment.

The Bantering and Best Diabetes Centre Drucker Family Innovation Fund Grants 2023/2024 have an application deadline of September 20, 2022. Funds available: up to $50,000. New this year, the application deadline for the Diabetes Team of the Year Award is October 18, 2022. Applicants should check eligibility carefully.

**SSHRC and WAGE Gender-based Violence Research Initiative** supports academic researchers partnering with other research-focused and community-based organizations to advance knowledge on and analyse the causes and persistence of GBV in Canada. Value: Up to $700,000 over four years. Application deadline: anytime until October 6, 2022. **UofT Researchers must submit on the Convergence Portal no later than noon on September 28, 2022.** MRA deadline is noon, September 22, 2022.

SSHRC’s Partnership Development Grant is now open for applications. **Submission deadline is November 15, 2022.** Funds available: $75,000 to $200,000 for one to three years. Funds can support knowledge mobilization as well as test new partnership approaches for research. **UofT applicants must submit their MRA by Monday, November 7, 2022, and their full application on-line to the SSHRC Portal by noon on Thursday, November 10, 2022.** UofT applicants interested in receiving editorial review (full details on [research services](#)) UTORID log in required) must submit their application by email by Monday, October 17, 2022.

**Students: Applying for research funding?** Contact the Research Office to get information and approval on proposals and ethics ahead of deadlines, and check with your supervisor!
Email: research.nursing@utoronto.ca

**New International Opportunities**

The Foundation for Women’s Cancer (US) is offering several grants. The FWC M4H Research Grant (all gynecologic cancers) and the Grant in Memory of Peggy A. Yates (all gynecologic cancers except ovarian cancer). Funds available: US$50,000. Diversity and Health Equity Research Grants: Value $75,000 (two grants). The Amy Krouse Rosenthal Foundation Early Detection Research Grant offers $75,000 over two years ($150,000 total). Ovarian Cancer: The National Ovarian Cancer Coalition Early Detection Research Grant offers US $50,000 over one year. The National Ovarian Cancer Coalition Quality of Life Research Grant offers US$50,000 over one year. The AstraZeneca Young Investigator Stimulus Research Grant for Ovarian Cancer Research offers US$50,000
for one year. The St. Louis Ovarian Cancer Awareness and Caring Together Research Grant for Ovarian Cancer offers US$50,000 for one year. The Laura Crandall Brown Ovarian Cancer Foundation Early Detection Research Grant offers US$50,000 for one year. Wilma Williams Education and Clinical Research Grant for Endometrial Cancer offers US$25,000 for one year. The Barbara Shields Grant in high-grade uterine cancer is $50,000 for one year. Check eligibility carefully. Abstracts are due by September 6, 2022. Full application by invitation due November 18, 2022.

**NCSBN**

The NCSBN Center for Regulatory Excellence Grant funds projects that advance the science of nursing policy and regulation and build regulatory expertise worldwide. Submission deadline September 30, 2022. Funds available: Up to US$300,000.

The Debra Spunt Research Grant from the International Nursing Association for Clinical Simulation and Learning application deadline is October 9, 2022. The competition is open to INACSL members only.

The American Association of Critical-Care Nurses offers two grants: the AACN Impact Research Grant, which awards three grants of up to US$50,000 each; and the AACN Sigma Theta Tau Critical Care Grant, which awards one grant of up to US$10,000. PhD students – if planning to apply for the STTI grant, please make sure your supervisor is listed as a co-PI and reach out to the research office for more information (research.nursing@utoronto.ca). The application for both opens on Monday August 29, 2022, with full application due Friday October 28, 2022.

**AANA**

The American Association of Nurse Anesthesiology General and Dedicated Research Grant Application Fall Deadline is November 1, 2022.

**Competitions with no fixed deadline**

**NSERC and Mitacs** have developed a joint application process for researchers seeking support from both agencies. It is now possible to request support through Mitacs Accelerate internships as part of the full Alliance application. The Alliance grants system accepts applications at any time – there is no deadline.

NSERC has launched Alliance International Catalyst and Collaboration Grants. Application deadline: No fixed date. Catalyst grants are up to $25,000 for up to one year; and Collaboration Grants are $100,000 per year for up to three years. These grants support Canadian researchers to work with leading international academic researchers, to establish and grow international research collaborations relevant to Natural Sciences and Engineering disciplines. Overall objectives: initiate development of international collaborations; support participation in international collaborative projects of global importance and benefit to Canada.

NSERC Alliance Grants. Application deadline: No fixed date. As of February 2022, Alliance Option 2 is funded 100% by NSERC.
Mitacs Accelerate accepts applications throughout the year. The competition is open to doctoral students and post-doctoral fellows. Students partner with a supervising professor and a partner organization to develop a research project. Partner funding is required. Funding begins at $15,000 for 8 months.

The Mayday Fund offers grants for research into pain. There is no deadline; grants are reviewed at the next Trustee’s meeting.

Max Bell Foundation has an ongoing review of grant applications in health and wellness. An LOI is required, and full application is by invitation.

The Thrasher Foundation in the US supports children’s medical research; there is no fixed deadline, although decisions are made twice a year, in March and September. International applicants are welcome.

The R. Howard Webster Foundation (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.

American Association of Nurse Anesthetists Open Submission Research Grant is to be used for Veterans Administration, Office Based Grants, and the Art Zwerling Grant (research or education in wellness, pain management, and peer assistance/substance use disorder).

CANSSI Ontario offers grants of up to $5,000 to cover covers associated with accessing and working with large data sources. Canssi also offers two grants of up to $10,000 each to support projects using ICES data. Applications are accepted on a rolling basis until two grants have been funded in a given academic year. Trainees or faculty members at Ontario-based universities are eligible to apply. Each proposal must include two faculty members from different academic units (at least one from a stats/biostats department). CANSSI also offers funds ($500-$1,000) to support Ontario workshop/lecture programs in emerging areas of statistical and data sciences.

NIH Funding

- Cancer Prevention and Control Clinical Trials Grant Program (R01 Clinical Trial Required); expires January 8, 2024; [NCI: PAR-21-035](#) (R01)
- NIMH (National Institute of Mental Health) Exploratory/Developmental Research Grant (R21 Clinical Trial Not Allowed); [PA-21-235](#); expiry date: May 8, 2024
- NICHD (National Institute of Child Health and Human Development) Small Research Grant Program (R03 Basic Experimental Studies with Humans required); [PA-21-231](#); expires May 8, 2024.
• NICHD Small Research Grant Program (R03 Clinical Trial Required); **PA-21-221**: expires May 8, 2024.
• Innovative mental health services research not involving clinical trials (R01, clinical trials not allowed); **PAR-21-316**: LOI due 30 days before application due date; check notice for all application dates. **Expiry September 8, 2024.**
• Dementia care and caregiver support intervention research (RO1, clinical trial required); **PAR-21-307**: LOI due 30 days before application due date; check notice for all application dates. **Expiry February 14, 2024.**
• Pragmatic trials for dementia care and caregiver support (R61/R33 – clinical trial required); **PAR-21-308**: LOI due 30 days before application due date; check notice for all application dates. **Expiry February 14, 2024.**
• Research on Biopsychosocial Factors of Social Connectedness and Isolation on Health, Wellbeing, Illness, and Recovery (**PAR-21-352**: R01 Clinical Trial Required, **Expires September 8, 2024**); **PAR-21-350**: R01 Clinical Trials Not Allowed, **Expires June 22, 2024**; (**PAR-21-349**: R01 Basic Experimental Studies with Humans Required, **Expires June 22, 2024**), **NCI, NINR, NIA.**
• Pilot studies for the spectrum of Alzheimer’s Disease/Alzheimer’s Disease-related dementias and age-related cognitive decline, R61, Clinical Trial optional (**PAR-21-360**). NIH and NIA. **Expires January 8, 2025.**
• Early and late-stage clinical trials for the spectrum of Alzheimer’s disease/Alzheimer’s related Dementias, and age-related cognitive decline, R01 Clinical Trial optional (**PAR-21-359**). NIH and NIA. **Expires January 8, 2025.**
• Research on current topics in Alzheimer’s disease and its related dementias, R21 Clinical Trial Optional (**PAR-22-094**) And R01 Clinical Trial Optional (PAR-22-093). NIH and NIA. **Expires November 13, 2024.**
• Notice of Special Interest: **Validation of Digital Health and Artificial Intelligence tools** for Improved Assessment in Epidemiological, Clinical and Intervention Research. This special notice applies to several NIH Programs, including those sponsored by the National Institute of Nursing Research: e.g., **PA-20-185; PA-20-183; PA-20-200** and more. **This opportunity expires March 09, 2024.**
• NINDS (National Institute of Neurological Disorders and Stroke) Exploratory Clinical Trials (Clinical Trial Required). **PAR-22-142**. Letter of intent required; **expires March 11, 2025.**
• Research opportunities in established cancer epidemiology cohort studies (U01; Clinical trial not allowed). **PAR-22-162**: Expiry March 1, 2025.
• Cancer epidemiology cohorts: Building the next generation of research cohorts (U01 Clinical trial not allowed): **PAR-22-161**. LOI optional; **expiry March 1, 2025.**
• Dissemination and implementation research in health (R01 – **PAR-22-105**; R21 – **PAR-22-109**; and R03– **PAR-22-106**). LOI required. **Expires May 2025.**
• NIDCR Small research grants for oral health data analysis and statistical methodology development (**R03 – PAR-22-160**). **Exprises May 2025.**
• Cancer prevention and control clinical trials planning grant program (R34, **PAR-22-173**); Letter of intent due 30 days before application date; **expires September 8, 2025.**
• Cancer prevention and control clinical trials planning grant program (U34, **PAR-22-174**); Letter of intent due 30 days before application date; **expires September 8, 2025.**

**Expiring soon**
• Development of innovative informatics methods and algorithms for cancer research and management (R21 clinical trial optional); **RFA-CA-22-021**. LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).
• Early-stage development of informatics technologies for cancer research and management (U01 Clinical trial optional); **RFA-CA-22-022**. LOI required. **Expiry November 18, 2022** (two rounds of application for new submissions).
• Measures and methods for research on family caregivers for people living with Alzheimer’s disease and related dementias. (R01, Clinical trial not allowed); **RFA-AG-23-022**. Letter of intent due September 20, 2022. **Application due October 20, 2022.**
• Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34,
Clinical trial optional): [RFA-MH-22-180](https://www.nih.gov). **Letter of intent required 30 days before application due date; full application due October 25, 2022.**

- Expanding prevention strategies for mental disorders in mobile populations in humanitarian crises (R34, Clinical Trial Optional); [RFA-MH-22-180](https://www.nih.gov), expires October 26, 2022; LOI due 30 days before application due date.

- More monitoring of cognitive change, continued (M3C3) (U2C Clinical Trial Optional; [RFA-Ag-23-021](https://www.nih.gov)); **Letter of intent due September 20, 2022, with full application due October 20, 2022.**

Many more opportunities are available in the [NIH database](https://www.nih.gov). Important: for researchers thinking of applying to the NIH, NIH strongly encourages PIs to contact program officers directly. Program Officers give valuable information and assistance to applicants. They will also help rejected applicants understand the weaknesses of an application.

Standard application deadlines apply. Please check NIH funding applications carefully re: submission deadlines. U of T Researchers must meet internal deadlines; please check with research office before beginning an application.

### New CIHR Opportunities

**Pre-Announcement: National Women’s Health Research Initiative:** [Pan-Canadian Women’s Health Coalition](https://www.nih.gov) virtual hubs. The hubs will work with a national coordinating centre (competition to launch in 2023). Hubs objectives: mobilize and scale up newly generated and existing knowledge and models of care; maximize research impact; build capacity; engage in community-based priority setting activities and identify future critical areas of research. Anticipated timelines: Launch: October 2022; ideas fair and learning circle (potential applicants are asked to attend this virtual event to develop their grant): October 25-26, 2022; registration deadline December 2022; application deadline February 2023. It is anticipated that $9.6 million will be allocated to the Pan-Canadian Women’s Health Coalition.

**Pre-announcement – Team Grants:** [Intervention trial in inflammation for chronic conditions](https://www.nih.gov) – evidence to impact. There will be a webinar to support applicants. Funding will support projects that are relevant to a minimum of two of the CIHR institutes collaborating on the opportunity and focus on at least one of three research areas (intervention trials to repurpose or optimize existing solutions for inflammatory conditions, intervention trials to demonstrate safety, efficacy, and/or effectiveness or new solutions, or implementation and scale-up of any type of evidence-based interventions). Funds available: $8,740,000, sufficient to fund eight letters of intent (max per LOI is $20,000 for one year of funding); four team grants (max per year is $500,000 per year for up to four years, for a total of $2,000,000 per grant), and one knowledge mobilization hub ($145,000 per year for up to four years for a total of $580,000). Timelines: anticipated launch September 2022; LOI deadline November 2022; full application due December 2023.

**Pre-announcement:** [Healthy youth catalyst grants](https://www.nih.gov). This opportunity will help support the overall purpose of the Healthy Youth Initiative; in addition to funding projects that align with the overall purpose of the initiative, there are additional priority research areas: physical health of youth (1 grant), LGTTQIA/2S youth (2 grants), Indigenous (First Nations, Métis, Inuit, and/or Urban Indigenous) youth (2 grants), and adolescent girls and reproductive health (2 grants). Overall purpose – four grants. Funds available: $1,100,000, enough to fund 11 catalyst grants. The maximum per grant is $100,000 per year for up to one year. Timelines: program launch: summer 2022; application deadline: fall 2022.

**Pre-announcement:** [Sleep Research Consortium – Research Team Funding Opportunity](https://www.nih.gov). This opportunity will support one research team to join the recently funded Sleep research consortium focused on sleep hygiene and
insomnia through the lifecycle. Funds available: $1,100,000, enough to fund one team grant. Timelines: program launch: fall 2022; webinar September 27, 2022, 11 am – 12:30 pm, registration deadline fall 2022, full application due winter 2023.

Team Grant: Transforming Health with Integrated Care (THINC) – Implementation Science Teams Grants. Application deadline November 29, 2022. These grants will inform the implementation, evaluation, adaptation and/or spread/scale (share) evidence-informed integrated care policies and interventions that encompass intersectoral collaborations in order to advance the Quadruple Aim and health equity for Canadians. Research areas: health services and policy; rural remote and northern communities; indigenous integrated care; aging in the right place; gender-affirming health; transforming health and wellbeing for children and youth; care of patients covered within the IMHA mandate; multimorbidity; and interdisciplinary approaches to equitable, diverse and inclusive integrated care. Funds available; $25,250,000, enough to support approximately 12 teams at a maximum of $400,000 per year for up to five years, for a total of $2,000,000 per grant. CIHR will hold an information webinar. When: Tuesday, October 4, 2022 at 2:00 PM (ET) | Join; Duration: 90 minutes; Language: English presentation followed by a period of questions and answers in both official languages, English and French.

Use your Research Office. We are here to support you. Please let us know when you are beginning the grant process – we are happy to assist with developing budgets and providing editorial, financial, content and methodological feedback. Let us know when you succeed! Email: research.nursing@utoronto.ca

Reminder – these competitions are still open

Canadian Opportunities

The Heart and Stroke Foundation Grant-in-Aid competition deadline is 4 pm Wednesday August 31, 2022. (GIA guidelines here). Maximum per grant is $100,000/ year for a maximum of three years. The New Investigator Award (NI guidelines here) deadline is 4 pm Wednesday September 7, 2022. The value is $60,000 per year for a maximum of three years.

SSHRC Knowledge Synthesis Grants on Gender-based Violence have an application deadline of September 1, 2022. Funds available: $30,000 for one year; SSHRC anticipates funding a maximum of 30 grants. UofT Researchers must submit their MRA by noon on August 25, 2022, and their full application on the SSHRC site by 9 am on August 30, 2022.

SSHRC Postdoctoral fellowships application deadline is September 14, 2022. Funds: $45,000 per year for up to two years.

SSHRC Insight Grant application deadline is October 1, 2022. UofT researchers must have an approved MRA by 12 noon on September 22, 2022, and must submit the full application on the SSHRC site by 9 am on September 28, 2022. Funds available in two streams. Stream A: $7,000-$100,000 and Stream B: $101,000-$400,000. Duration: 2-5 years. UofT also offers a webinar (UTOR Log in required) on August 23, 2022. SSHRC offers a
webinar in English on September 1, 2022, 1:00 pm – 2:30 pm.
Link: https://sshrcvideo.webex.com/sshrcvideo/j.php?MTID=mc7cda895b72b4e140f12319e12ce2873. SSHRC has also developed guidelines for effective knowledge mobilization, which may be helpful for the Insight grant.

**The Canadian Lung Association** grant competition registration deadlines are September 9, 2022, with full applications due October 7, 2022. Funds available:
- Allied Health Research Grant: awardee must secure at least 50% of the budget as matching funds (to a maximum of $10,000).
- Allied Health Research Fellowship Award (masters or doctoral students): annual stipend is based on a 50:50 match between the lung association and the trainee’s supervisor; for full-time students, the Canadian Lung Association will contribute a maximum of $5,000.
- Research Fellowship and Studentships (MD and PhD students): Matching funding is required.

The University of Toronto’s Data Sciences Institute [Data Access Grants](https://www.datasciences.utoronto.ca/programs/data-access-grants) application deadline is September 30, 2022. Value: Up to $10,000 for up to 8 months. These grants will cover costs for accessing and working with large data sources; projects should bring together researchers from different disciplines to work on projects through a shared trainee or trainees. Applicants must be members of the Data Sciences Institute.

**International Opportunities**

**Sigma Theta Tau International** is now accepting applications for the Association of perioperative Registered Nurses Grant. **Application deadline is August 31, 2022.** PhD students considering this opportunity should list their supervisor as PI and consult with the research office.

**ResMed Foundation** (Supporting sleep and respiratory health through research and education) **clinical research proposal application deadline is September 15, 2022.**

**The Greenwall Foundation** [Faculty Scholars Program 2022-2023](https://www.greenwallfoundation.org/faculty-scholars-program) Requests for Proposals is now open. **Letters of intent are due by midnight on September 19, 2022.** This program offers 50% salary support for three years for approximately three scholars to carry out a specific research proposal and develop their research program.

The Foundation is also seeking proposals for **Bridging Bioethics Research and Policymaking**, to support innovative and practical integration of bioethics into policy. **Application deadline is August 22, 2022.**

**Pre-launch announcement: PCORI** is launching its phased large awards for comparative effectiveness research – cycle 3, 2022, on September 7, 2022. An applicant town hall will be held September 12, 2022. **Letter of intent deadline is October 4, 2022, with full application due January 10, 2023.** The opportunity is for applications for high-quality comparative clinical effectiveness research projects, either individual-level or cluster randomized controlled trials.
The Horowitz Foundation for Social Policy 2022 competition deadline is December 1, 2022. This award for PhD students supports projects with a social policy application on either a global or local level. There are special award supplements for projects addressing health and welfare, particularly in urban settings, and science, technology and medicine. Past projects with a health focus include: Examining the direct and indirect effects of contraceptive access, Uncounted and invisible: The lives and health of H-2A workers in Ohio, How do states vary in the admission and care of people with mental illness in nursing homes.

Alex’s Lemonade Stand Foundation Young Investigator Grant competition deadline is December 12, 2022. Funds available: US$50,000 per year for up to three years.

CIHR Grant Opportunities

Catalyst Grant: Standards for Children and Youth Mental Health Services. Registration deadline September 1, 2022, with full application due September 22, 2022. This funding opportunity will support projects focusing on standards or guiding principles in mental health and/or substance use. Total funds: $4,400,000, enough to fund up to 22 one-year grants (maximum per grant is $200,000 for one year).

Operating Grant: Data analysis Using Existing Databases and Cohorts (2022). Application deadline September 7, 2022. This opportunity supported by the CIHR Institute of Human Development, Child and Youth Health will support projects using data from existing Canadian-based cohorts, etc. and that are relevant to reproductive, maternal, child and/or youth health. Total amount available is $450,000, enough to fund approximately six grants. Maximum amount per grant is $75,000 for up to one year.

Training Grant: Patient-Oriented Research Training Grant – Health System Stream. Application Deadline September 8, 2022. A total of $2.4 million is available, enough to fund up to 12 grants. Maximum per grant is $100,000 for up to two years (total of $200,000 per grant). The aim of the grant is to build capacity for uptake of patient-oriented research by providing non-governmental Canadian health systems or related organizations to embed POR principles, practices and findings within Canadian health care context. Applications should address knowledge mobilization and integration of evidence in health decisions; training and capacity development; and indigenous health research.

The 2022-2023 Banting Postdoctoral Fellowship application deadline is September 9, 2022. UofT applicants will need to meet internal deadlines. The award is worth $70,000 per year for two years. More detailed information can be found at the Banting website. It is open to Canadian citizens, permanent residents of Canada and foreign citizens. The University of Toronto is offering UofT graduate students a workshop on how to write a successful Banting PDF application on June 21, 2022, 12 pm – 1:30 pm.

The Institute of Human Development, Child and Youth Health’s IHDCYH Talks competition has launched. Registration deadline is September 9, 2022; submission deadline is September 19, 2022. Submit your short video (5 mins or less) of a clear evidence-based message to a lay audience that is designed to have an impact on the health of children, youth and families. First place prize: $3,000; second place: $2,000; 3rd place: $1,000; two special commendations at $500 each.

The Project Grant application deadline (applicants must have registered first) is September 14, 2022. CIHR is hosting 90-minute Ask Me Anything sessions to support applicants.
  • Tuesday, August 30 at 1:30pm ET | Join
UofT applicants must submit their MRA by September 7, 2022.

Institute of Nutrition, Metabolism and Diabetes **Training and Community Support Grant (2022/2023) application deadline is September 30, 2022.** Funds available: up to $50,000 per grant. This grant will support INMD research communities to build training programs that will support comprehensive training; promote a greater understanding of emerging research and knowledge exchange approaches; increase training and professional development; and consider best practices in EDI in training.

Catalyst Grant: **Policy Research for Health System Transformation.** Full application deadline October 4, 2022. The application form opens on June 30, 2022. This funding opportunity will support one-year Policy Research for Health System Transformation grants that generate evidence to inform macro-level policies to support high-performing health care and public health systems in Canada with the aim of advancing the Quadruple aim (improved population health outcomes, better patient and provider experience, and increased value) and health equity. Value: $150,000 for one year. Approximately 24 grants will be awarded. Additional funds may be available from external partners, and supplemental funding of $75,000 will support highest overall ranked fundable application to lead the Knowledge Mobilization Synthesis Project. **New priority area under the Institute of Circulatory and Respiratory Health,** which includes novel service delivery; digital health solutions; primary/home/community-based care; aging in the right places; integration of care; anti-racist, anti-colonial, etc.; advancing sustainable organizations and delivery models.

**Operating Grant: Diabetes, Psychosocial Health, Prevention and Self-Management.** Application deadline **November 1, 2022.** There are three research areas: CIHR-JDRF Funding Pool in T1D (four applications will be funded); Indigenous youth and young adults T2D prevention and Self-management (two applications will be funded); and Prevention and self-management for youth and young adults in racialized, low socio-economic status, and ethnocultural communities disproportionately affected by T2D (two applications will be funded). Funds available: $8 million, enough to fund approximately 8 grants. Maximum amount per grant is $250,000 per year for up to 4 years, for a total of $1,000,000 per grant.

**Doctoral student funding:** PhD students should check with their supervisor about the appropriateness of competitions for their program of research. All competitions have an internal University of Toronto deadline (to be announced) as all applications must go through a university-wide internal competition. The University of Toronto’s School of Graduate Studies is offering information sessions for UofT graduate students on all opportunities:

The Canada Graduate Scholarships - Doctoral Program is open to Canadian citizens, permanent residents, or protected persons. New this year, awardees will receive an annual stipend of $35,000 per year (no research allowance) for up to 36 months. Applicants apply via CIHR, SSHRC, or NSERC.

The CIHR CGS-D ResearchNet application system is now open (internal UofT deadline to be announced). Priority Announcements are for circulatory and respiratory health, HIV/AIDS and/or STBBI, patient-oriented research, primary prevention of cancer, research in First Nations, Métis and/or Inuit health, and Canada Graduate Scholarship to Honor Nelson Mandela.

The SSHRC Doctoral Fellowship is offered through the national Canada Graduate Scholarship Program as well. This means it is subject to an internal review at the University level, and internal deadlines will apply. It is valued at $20,000 for up to four years to a total of $80,000. The SSHRC doctoral awards portal (fellowship and CGS-D) is now open.

The CIHR Fellowship is open to non-citizens, and has an application deadline of October 5, 2022. New information: UofT applicants must submit an MRA (via supervisor) by September 29, 2022. The value ranges from $20,000 - $40,000 per year depending on qualifications, with a $5,000 research allowance per year. Priority research areas this year include aging; circulatory and respiratory health; First Nations, Inuit, Métis and/or urban Indigenous health; HIV/AIDS and/or STBBI; research and knowledge translation on urban housing.

Research Updates

CIHR News and Updates

- Update on Fall Project Grant, including ECR extensions
- CIHR Policy Guide on requirements for clinical trials registration and disclosure of results
- CIHR has expanded its equity and diversity questionnaire on ResearchNet.
- CIHR has launched the National Women’s Health Research Initiative; the initiative will advance under-researched and high-priority areas of women’s health, intersectoral research, evidence to improve women’s and gender-diverse people’s care and health outcomes. The Pan Canadian Women’s Health Coalition is one of two funding streams; it will be composed of hubs across Canada linked through a coordinating centre. The objectives are to mobilize and scale-up newly generated and existing knowledge and models of care; maximize research impact; build capacity; and engage in community-based priority setting activities and identify future critical areas of women’s health research. The call for the Coordinating Centre will launch in Fall 2023. The call for the hubs will launch October 2022. The Innovation Fund will offer two funding opportunities: Proof of principle grants (biomedical research) and operating grants (supporting translational research and healthcare implementation research).
• CIHR’s Institute of Musculoskeletal Health and Arthritis has launched a series of modules on reasons to engage patients in research.

**University of Toronto Updates**

CRIS has launched a Researcher Development Framework, a collection of information and training to support researchers.

UofT REDCap Fall 2022 virtual office hours have been announced.

The Canadian Immunization Conference has been postponed to April 25-27, 2023, in Ottawa, ON. The call for submissions deadline has been extended to October 5, 2022.

The American Society of PeriAnesthesia Nurses 42nd National Conference will be held in Denver, CO, April 27-030, 2023. Abstract submission deadline is October 15, 2022.
The Operating Room Nurses Association of Canada annual conference will be held in Quebec City, April 26-30, 2023. **Abstract submission deadline is November 1, 2022.**

The 2023 American Nursing Informatics Association annual conference will be held May 10-12, 2023, in Louisville, KY. **Poster abstracts are due December 15, 2022.**

### Requests for Manuscripts

#### New Calls for Manuscripts

**INNOVATION IN AGING** Innovation in Aging (Oxford, IF 6.06) is calling for papers for a special issue on **Translation Research on Pain and Pain Management in Later Life**. **Abstracts are due September 30, 2022,** with full manuscripts due February 28, 2023. The Journal is also calling for papers for a **special issue on Aging** in Sub-Saharan Africa. **Abstracts are due November 15, 2022,** with full manuscript submission deadline of March 30, 2023.

**CAMH: Child and Adolescent Mental Health** Child and Adolescent Mental Health (ACAMH, IF 4.111) is calling for papers for a special issue on **technology and mental health** for children and adolescents: pros and cons”. **Letter of intent deadline is December 13, 2022.**

**JAN** Journal of Advanced Nursing (Wiley, IF 3.057) is calling for papers for a special issue on understudied phenomena and emerging methodologies for nursing. **Manuscript submission deadline is February 28, 2023.**

**Journal of Human Lactation** The Journal of Human Lactation (Sage, IF 2.665) is calling for papers for a special issue on Infant and young child feeding in relationship to environmental and climate change. **Manuscript submission deadline is May 1, 2023.**

#### Continuing Calls for Manuscripts

**Family Practice** Family Practice (Oxford, IF2.267) is calling for manuscripts for a themed issue on **Climate Crisis** and Primary Health Care. **Submission deadline is September 1, 2022.**

**Health Education Journal** Health Education Journal (Sage, IF 1.492) is calling for papers for a special issue on **Digital Health Education**. **Deadline for abstract submission is September 1, 2022 (for feedback), and full paper submission deadline is April 1, 2023.**

**The Journal of Urban Health** The Journal of Urban Health (Springer, IF 3.671) is calling for papers for a special issue on Reducing Poverty and its Consequences. **Submission deadline is September 1, 2022.**
Women and Birth (Elsevier, IF 3.172) is calling for a special issue on midwifery education: innovation and implementation to support our future profession. Submission deadline is September 1, 2022. Topics of interest include innovative approaches to midwifery education, quality improvement projects to evaluate midwifery education, models of care, and more.

Maternal and Child Health Journal (Springer, IF 2.276) and other journals, including the Journal of Urban Health, are calling for papers for a collection of papers on “Reducing Poverty and its Consequences”; submissions are due September 1, 2022. Maternal and Child Health Journal is also calling for submissions for “Perinatal Substance use”; deadline is September 1, 2022 deadline extended to October 1, 2022.

The Journal of Nursing Scholarship (Sigma, IF 3.176) is calling for papers for a special issue on Gender Diversity and Health. Submissions due September 15, 2022.

Perspectives in Public Health (Sage, IF 4.940) is calling for papers for two special issues. Manuscript deadline for both is September 23, 2022. Spatial planning for improved health and wellbeing is interested in papers about neighbourhood design, health and care settings, health implications of climate change and sustainability, and workforce development on planning for health practice. Guest editor is Michael Chang. Recovery outside of mental health services: what can public health contribute? Topics of interest include studies providing insights into reasons for service avoidance, studies providing insights into experiences of people affected by mental health problems but not being treated by mental health services, and more. Guest editor is Stefan Rennick-Egglestone.

Public Health Elsevier, IF 2.477) is calling for submissions for a special issue on Public Health Emergencies. Editors are interested in a very wide range of topics, with original research and reviews. Submission deadline is September 30, 2022.

Bioethics (Wiley, IF 1.898) is calling for papers for a special issue on reproductive technologies and family ties. Submission deadline is September 30, 2022.

Innovation in Aging (Oxford, IF 0.84) is calling for papers for a special issue on translational research on pain and pain management in later life. Abstract submission deadline is September 30, 2022, with full papers due February 28, 2023.

Clinical Gerontologist (Taylor and Francis, IF 2.646) is calling for papers for a special issue on addressing access to care in diverse older adult populations using technology and telehealth. Submission deadline is October 1, 2022. Topics of interest include providing supports and services for older adults living in rural and other geographically isolated areas, drawbacks of using technology and telehealth with older adults, and more.
The Journal for Nurse Practitioners (IF 0.826) is calling for papers for a special issue on **Innovations in Nurse Practitioner Education**. *Manuscript submission deadline is October 1, 2022.*

The Journal of Genetic Counseling (Wiley, IF 2.537) is calling for papers for a special issue on “Science, Practice and Innovation in Genetic Counseling Education”. **Submission deadline is October 1, 2022.** Topics of interest include building clinical competence, interprofessional education, incorporating diversity, equity and inclusion, and more.

**Worldviews on Evidence-based Nursing** (Wiley, IF 4.347) is calling for papers for a special issue on Interventions to prevent and reduce burnout, depression, and suicide in nurses/clinicians/health care leaders and learners as well as system interventions and new models of care to enhance wellness cultures and reduce burnout. **Manuscript submission deadline is October 1, 2022.**

Bioethics (Wiley, IF 2.512) is calling for papers for a special issue on **bioethics challenges in times of war**; topics of interest include ethical and human rights challenges faced by healthcare providers and policymakers in a context or as a consequence of armed conflict. **Deadline for submission:** October 15, 2022.

The International Journal for Equity in Health (BMC, IF 3.805) is calling for papers for a new collection on **Equity in Precision Medicine**, which will focus on genetic and epigenetic testing. **Full papers are due October 21, 2022**; authors are encouraged to contact the editors with proposals ahead of this date (Angeline Ferdinand, a.ferdinand@unimelb.edu.au and Evie Kendal, ekendal@swin.edu.au).

International Emergency Nursing (Elsevier, IF 2.142) has two calls for papers open. **Deadline for both is November 1, 2022.** *Data science in the emergency department* is calling for papers on big analytics in emergency care, data-driven process monitoring, decision support systems and more. *Leadership in the Emergency Department* is calling for papers on leadership and culture in emergency care, leadership skill development in emergency care, evidence-based approaches for staff support, reducing burnout and increasing psychological safety, and more.

Aging and Mental Health (Taylor and Francis, IF 3.658) is calling for papers for a special issue on technology, aging, and mental health: opportunities and challenges. **Submission deadline is November 1, 2022.**

Journal of Human Lactation (Sage, IF 2.219) is calling for papers for a special issue on **Human Milk** as a Biological System. **Manuscripts are due November 1, 2022.**
The Journal of Nursing Management (Wiley, IF 3.325) is calling for papers on Midwifery Care. Manuscripts are due November 30, 2022.

The Journal of Nursing Management (Wiley, IF 3.325) in collaboration with Nursing in Critical Care (Wiley, IF 2.325) are calling for papers for a special issue on “Into the Future: Management and Leadership of Intensive Care Units Globally. Challenges and opportunities”. Manuscript submission deadline is November 30, 2022. Topics of interest include workforce issues, staffing, retention, and more.
