Doctoral Programs Information Session

November 15, 2024

Presenter: Samantha Mayo, RN PhD

Associate Professor and Director, Doctoral Programs

Land Acknowledgement

We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and the Mississaugas of the Credit. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.

Agenda

- Why Choose a Doctoral Program at Bloomberg Nursing?
- PhD Program Overview
- Doctor of Nursing (DN) Program Overview
- Funding
- PhD and DN Admission Process
- Current Student Panel

Why Choose a Doctoral Program at Bloomberg Nursing?

As a research-intensive faculty, we are leaders in:

- Creating new knowledge that shapes the discipline of nursing around the world
- Knowledge translation that advances practice excellence
- The development of new and innovative nursing programs

Our Programs

Doctor of Philosophy (PhD) Program

The PhD program prepares graduates who excel in generation of knowledge through research.

Doctor of Nursing (DN) Program

The DN program focuses on the implementation and dissemination of knowledge in diverse healthcare settings.

UNIVERSITY OF TORONTO

PhD Program

PhD Program

- Typically the highest academic degree awarded and requires at least four years of study and extensive original research
- Main purpose of a PhD is to demonstrate that you can do research
- Generally required for those who wish a career in academia or as a research scientist

Laura Istamboulian, RN PhD

Laura's research examined bundled communication interventions for use in adult ICU with infection control procedures.

PhD Degree

Full-time

Four-year program

In-person courses
and program

PhD Program Requirements

Path to Candidacy (2 years)

- ✓ Literature Review paper
- ✓ Completion of a minimum of 3 full courses
 - PhD Seminar 1 (0.5 FCE)
 - Research Methods for Knowledge Discovery (1.0 FCE)
 - PhD Seminar 2 (0.5 FCE)
 - Field of study (0.5 FCE)
 - Field of Study or methods (0.5 FCE)
- ✓ Proposal defense

Final Oral Examination on the Dissertation

Four-Year “Road Map”

	Year 1	Year 2	Year 3	Year 4
Path to Candidacy: 1. Course work 2. Lit review 3. Proposal defense	<i>Course Work:</i> <ul style="list-style-type: none"> NUR1081 (fall & winter) NUR1079 (fall & winter) 1 substantive <i>By April 30: Set committee, problem statement, & literature review topic</i>	<i>Course Work:</i> <ul style="list-style-type: none"> NUR1082 (fall) 1 methods or substantive <i>By September 30: Submit literature review paper</i> <i>Proposal Defense</i>		
Ethics (post-defense)				
Data collection				
Analysis				
Writing				
Final Oral Exam				

Collaborative Programs

- Addiction Studies
- Aging, Palliative and Supportive Care Across the Life Course
- Bioethics
- Global Health
- Women's Health

PhD Research Symposium

- An on-site symposium held each April/May
- All students will present their “in-progress” research projects (focus is dependent on year in the program)
- Professional development sessions
 - Peer review
 - CV development
 - Writing for publication
 - Teaching Dossiers
 - Mentorship

Doctor of Nursing (DN) Program

Doctor of Nursing Program

- To prepare nurses at the doctoral level for leadership roles in organizations and systems in healthcare or nursing education
- To provide a program that develops a nursing workforce to effectively meet the increasingly complex roles of nurse leaders across health care systems and in nursing education

Who Should Consider the DN Program?

Nurses with strong leadership skills who want to enter:

- Executive leadership roles in healthcare – Chief Executive Officers, Vice-Presidents of Nursing
- Mid and senior-level leadership roles in government, policy, professional associations
- Leadership roles in government, regulation, policy, quality and safety science
- Teaching roles in nursing education programs

Distinctive Elements of the DN Program

Cohort, course-based
8 term program

Hybrid delivery:
online courses &
annual in-person
residencies

4 doctoral seminars
3 required courses
1 elective course

2 internships with
nurse leaders

Residency: Annual
DN Symposium

DN Courses

Core Courses

- Health Services and Education Leadership
- Implementation Science in Health Care and Education
- Health Policy in Clinical Practice and Education

Examples of Elective Courses

- Analysis and Application of Individual and Population Health Data
- Informatics and Technologies for Practice Advancement
- Equity and Ethics in Healthcare
- Evaluation Science and Scholarship in Teaching and Learning in Healthcare Practice and Education

Internships

Each student will complete 2 internships of 50 hours each in the first 2 years of the program

Internships will be offered locally, nationally, and internationally (e.g. with nursing leaders in TAHSN and nursing professors in faculties of nursing)

Students must develop clear realistic goals, learning objectives, and identify expected outputs for each internship

Residencies – DN Symposium

- Students will complete three, 3-day residencies on campus (April/May annually)
- Residencies provide an opportunity for students to meet with each other and with faculty and engage with nurse leaders who will provide in-depth and interactive opportunities to explore key topics in health care, education, and policy settings
- All students present their “work in progress”

**Bloomberg
Nursing**

DN Thesis

- For the DN degree, students will be required to successfully complete a thesis
- The thesis must include the identification and investigation of a practice problem, articulation and application of theory and research to the problem, the design and strategies for action to address the problem, report on strategies implemented to address the problem, results, and discussion

Program Map

Funding

Funding - DN

- Primarily self-funded
- DN Funding:
 - Employment income
 - Employer sponsorships
 - External scholarships

Funding - PhD

- PhD students are eligible for funding for years 1-4
- Funding Eligibility
 - Pursue studies full-time
 - Maintain good academic standing
 - Make satisfactory progress toward degree completion
- Funding package covers:
 - Tuition
 - Teaching Assistantship (~140 hrs)
 - Internal Awards

Doctoral Programs Q&A Funding Workshop

- December 5th: 12:00PM-1:00PM ET
- Scan QR code to register online and to submit questions beforehand!

Admissions

PhD Admission Requirements

Hold a master's degree in nursing or related field or equivalent

Have a minimum B+ standing in your master's degree

Identify a faculty member who has agreed to be your supervisor

Identifying a PhD Supervisor

- See web resources from SGS:
https://www.sgs.utoronto.ca/resources-supports/supervision/supervision-guidelines/supervision-guidelines-for-students-section-1-introduction/#section_2
- See faculty list on our website and consider:
 - Research area from publications
 - Clarify methodology expertise
 - Explore ability to work together
- May contact connect.nursing@utoronto.ca or samantha.mayo@utoronto.ca

Step 1: PhD Admission Pre-Screening

Send to connect.nursing@utoronto.ca:

Unofficial transcripts

Proof of English Facility (if degree is from outside of Canada and English is not the primary language of instruction)

CV with evidence of research experience and resultant scholarly outputs (eg. publications, presentations)

Potential supervisor(s) and why they are a good match

Step 2: PhD Admission Application

Once pre-screening is complete,
submit through SGS Application Portal:

- CV (plus comment on any gaps)
- Research & Career Plans (research interests, background, career plans, UofT fit, balance)
- Sample of work
- Two academic references
- Transcripts

PhD Admission: Tips

Acceptance into the program is based on:

High marks
(particularly in
research courses)

Research
experience

Writing ability

Fit with supervisor

Doctor of Nursing (DN) Admission: Requirements

- Hold a master's degree in nursing or closely-related field
- Have a minimum B+ standing in your master's degree
- Have a minimum of 2 years relevant healthcare leadership experience or advanced nursing education teaching experience
- Be a registered nurse holding current registration in at least one jurisdiction
- Identify a faculty member who has agreed to be your supervisor

Identifying a DN Supervisor

- See web resources from SGS:
https://www.sgs.utoronto.ca/resources-supports/supervision/supervision-guidelines/supervision-guidelines-for-students-section-1-introduction/#section_2
- Selection process more nuanced
- Contact samantha.mayo@utoronto.ca to discuss potential supervisors

Step 1: DN Admission Pre-Screening

Send to connect.nursing@utoronto.ca:

Unofficial transcripts

Proof of English Facility (if degree is from outside of Canada and English is not the primary language of instruction)

CV with evidence of at least 2 years of relevant healthcare leadership experience or advanced nursing education teaching experience

Potential supervisor and why they are a good match

Step 2: DN Admission Application

Once pre-screening is complete,
submit through SGS Application Portal:

- CV (plus comment on any gaps)
- Research & Career Plans (potential project, background, career plans, leadership/education experience, balance)
- Sample of written work
- One academic and two professional/employment references
- Transcripts

DN Admission: Tips

Acceptance into the program is based on:

High marks
(particularly in
research courses)

Leadership/education
experience

Writing ability

Fit with supervisor

Doctoral Programs Q&A Admissions Workshop

- November 25th from 12:00PM-1:00PM ET
- Scan QR code to register online and to submit questions beforehand!
