NIH Funding

New

- Secondary Analysis of Existing Datasets in Heart, Lung, and Blood Diseases and Sleep Disorders (PAR 025-056); **two application deadlines: February 28, 2025, and October 28, 2025** ([PAR-25-056](#)).
- Research on current topics in Alzheimer’s disease and its related dementias. Two opportunities: [PAR-25-332](#) – Expires November 6, 2027; and [PAR-25-331](#) – Expires November 17, 2027
- Ethical, legal and social implications research. Three opportunities: [PAR-25-371](#) – Expires November 19, 2026; [PAR-25-370](#) – Expires November 17, 2026; [PAR-25-369](#) – Expires November 19, 2026.
- Innovative pilot mental health services research not involving clinical trials. Two opportunities: [PAR-25-284](#) and [PAR-25-283](#) – both expire January 8, 2028, LOI required 30 days before submission for both.

More opportunities are available in the [NIH database](#). Important: for researchers thinking of applying to the NIH, **NIH strongly encourages PIs to contact program officers directly.** Program Officers give valuable information and assistance to applicants. They will also help rejected applicants understand the weaknesses of an application.

Standard application deadlines apply. Please check NIH funding applications carefully re: submission deadlines. U of T Researchers must meet internal deadlines; please check with research office before beginning an application.

Competitions with no fixed deadline

[NSERC and Mitacs](#) have developed a joint application process for researchers seeking support from both agencies. It is now possible to request support through Mitacs Accelerate internships as part of the full Alliance application.

NSERC Alliance Grants. **Application deadline: No fixed date.** There are two streams: Alliance [Advantage](#): \$20,000 to \$1 million per year for 1-5 years, university researchers collaborate with external organizations to meet partner goals. Alliance [Society](#): \$20,000-\$1 million per year for 1-5 years; university researchers collaborate with partners on projects with societal impact.

[Mitacs Accelerate](#) accepts applications throughout the year. The competition is open to doctoral students and postdoctoral fellows. Students partner with a supervising professor and a partner organization to develop a research project. Partner funding is required. Funding begins at \$15,000 for 8 months.

[Mitacs Elevate](#) accepts proposals all year round. This is a postdoctoral fellowship with a professional development curriculum component. Value: minimum \$55,000 stipend (partner contributes \$30,000 per year).

GATEWAY

FOR CANCER RESEARCH

The [Gateway Foundation for Cancer Research](#) accepts grants from researchers around the world on a rolling basis. Successful grant applications are typically funded within 3 to 4 months. A letter of intent is required, and if accepted, applicants have roughly four weeks to submit the full application.

RISING TIDE

Foundation

The [Rising Tide Foundation for Clinical Cancer Research](#) (Switzerland) accepts letters of intent year-round. Note – matching cash funds are required. Check for eligibility by emailing grants@risingtide-foundation.org before beginning an application.

The [Mayday Fund](#) offers grants for research into pain. **There is no deadline; grants are reviewed at the next Trustee's meeting.**

Max Bell Foundation

[Max Bell Foundation](#) has an ongoing review of grant applications in health and wellness. An LOI is required, and full application is by invitation.

The [R. Howard Webster Foundation](#) (Canada) offers funding in the broad areas of Arts & Culture, Education, Environment, Medical, and Social Services. There are no specific deadlines, and once submitted, review and decision process may take up to 6 months.

[CANSSI Ontario](#) offers grants of up to \$5,000 to cover covers associated with accessing and working with large data sources. Canssi also offers two grants of up to \$10,000 each to support projects using ICES data. **Applications are accepted on a rolling basis** until two grants have been funded in a given academic year. **Trainees or faculty members** at Ontario-based universities are eligible to apply. Each proposal must include two faculty members from different academic units (at least one from a stats/biostats department). CANSSI also offers funds (\$500-\$1,000) to support Ontario workshop/lecture programs in emerging areas of statistical and data sciences.

Reminder – these competitions are still open
